Forward and Introduction

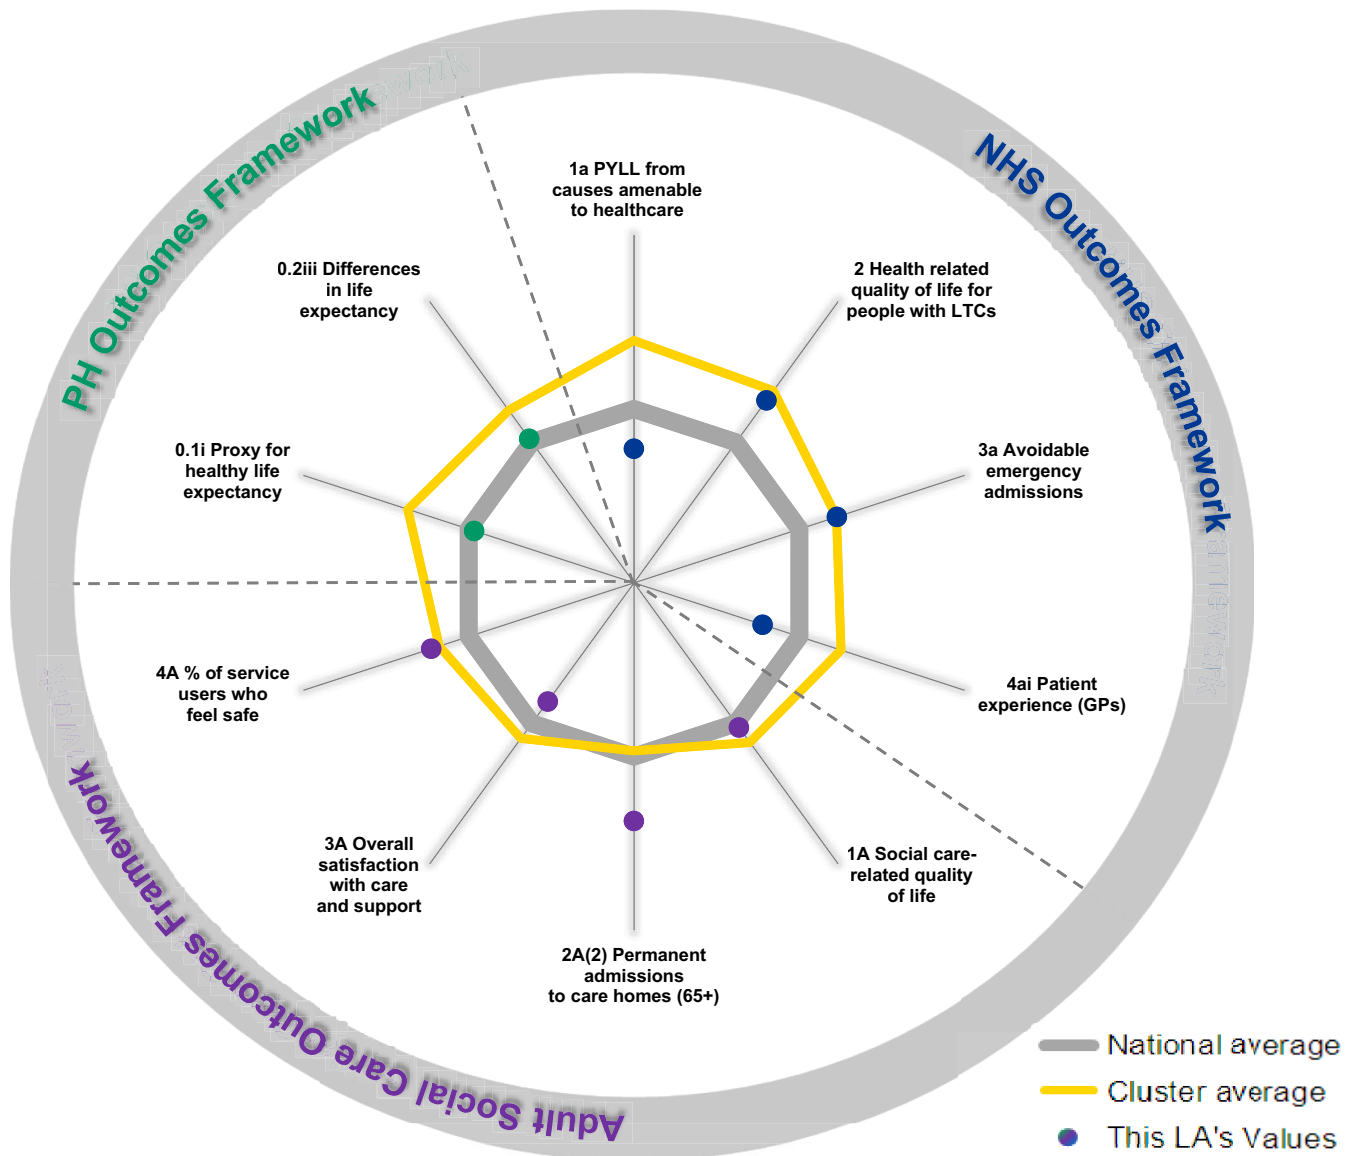

Local decision making is at the heart of the NHS, and the NHS Commissioning Board, Public Health England and the Local Government Association are committed to providing high quality comparable intelligence to support clinical commissioning groups (CCGs) and health and wellbeing boards (HWBs) identify local priorities and agree local plans.

Alongside the publication of the NHS Commissioning Board's 2013-14 Planning Guidance, we have produced initial information packs at Local Authority and CCG level that set out key data to inform the local position on outcomes. The Local Authority level packs present high level comparative information on the NHS, the Adult Social Care and the Public Health Frameworks. The CCG level packs provide a more detailed analysis of NHS outcomes and other relevant indicators.

The purpose of these is to provide CCGs and HWB partners with a quick and easy-to-use summary of their current position on outcomes as they take up their role, building on the data sets in the CCG outcomes indicators and other existing data sets. The information should be used alongside the local intelligence that is being collected to inform local Joint Strategic Needs Assessments and it will support commissioners working together to set the priorities for the Joint Health and Wellbeing Strategy. Where possible we have signposted other relevant information sources that might help build an understanding of the specific issues locally.

These information packs represent a starting point for the way the NHS CB will provide support in this area going forward and we hope you find them useful. We would like to offer you an open invitation to work co-productively with us on an on-going basis to help shape these tools in a way that would be most helpful for you locally. If you have any comments or suggestions for improvement please email nhs.cb.outcomes-benchmarking@nhs.uk.

Peterborough summary spider diagram (shows one indicator per domain)

This LA is in the Prospering UK ONS cluster

Each 'leg' of the chart represents a high-level indicator from the three Outcomes Frameworks.

Each 'leg' is orientated such that points further from the origin represent "better" performance.

Where there is more than one indicator for an Outcome Framework domain, a single indicator is shown in this chart.

The coloured spots show this LA's rank within all LAs in England. The grey circle represents the England median and the yellow shape represents the ONS cluster median.

The equal spacing of the indicators in the diagram is not meant to suggest any implied weighting or relative importance of the different indicators or Outcomes Frameworks.

Peterborough spine chart (shows all overarching indicators)

The chart below shows the distribution of the LAs on each indicator in terms of ranks. This LA is shown as a red diamond. The yellow box shows the interquartile range and median of LAs in the same ONS cluster as this LA. Each indicator has been orientated so that better outcomes are towards the right (light blue).

This chart supports the spider chart by providing a single page summary of all the available overarching indicators.

This LA is in the Prospering UK cluster

Outcome Indicator	LA and cluster distribution (LAs ranked; right = better outcomes)
1a Potential years of life lost (PYLL) from causes considered amenable to healthcare	
1bi Life expectancy at age 75 (Males)	
1bii Life expectancy at age 75 (Females)	
2 Health-related quality of life for people with long term conditions	
3a Emergency admissions for acute conditions that should not usually require hospital admission	
3b Emergency readmissions within 30 days of discharge from hospital	
4ai Patient experience of GP services	
4aii Patient experience of GP out-of-hours services	
4aiii Patient experience of dental services	
0.1i Proxy for healthy life expectancy a birth using Disability Free Life Expectancy (DFLE) at age 16	
0.2ii Life expectancy at birth	
0.2iii Slope Index of Inequality in life expectancy at birth [proxy dataset]	
1A Social care-related quality of life	
2A(1) Permanent admissions to residential and nursing care homes (age 18-64)	
2A(2) Permanent admissions to residential and nursing care homes (age 64+)	
3A Overall satisfaction of people who use services with their care and support	
4A Proportion of people who use services who feel safe	

SECTION 1

Background Information

Population profile (2011 census)

The chart below shows the number of people in this Local Authority by sex and 5-year age band.

The darker outlines show the profile of the England population.

The table below shows summary population numbers for this Local Authority and also how it is expected to grow by 2015 and 2020.

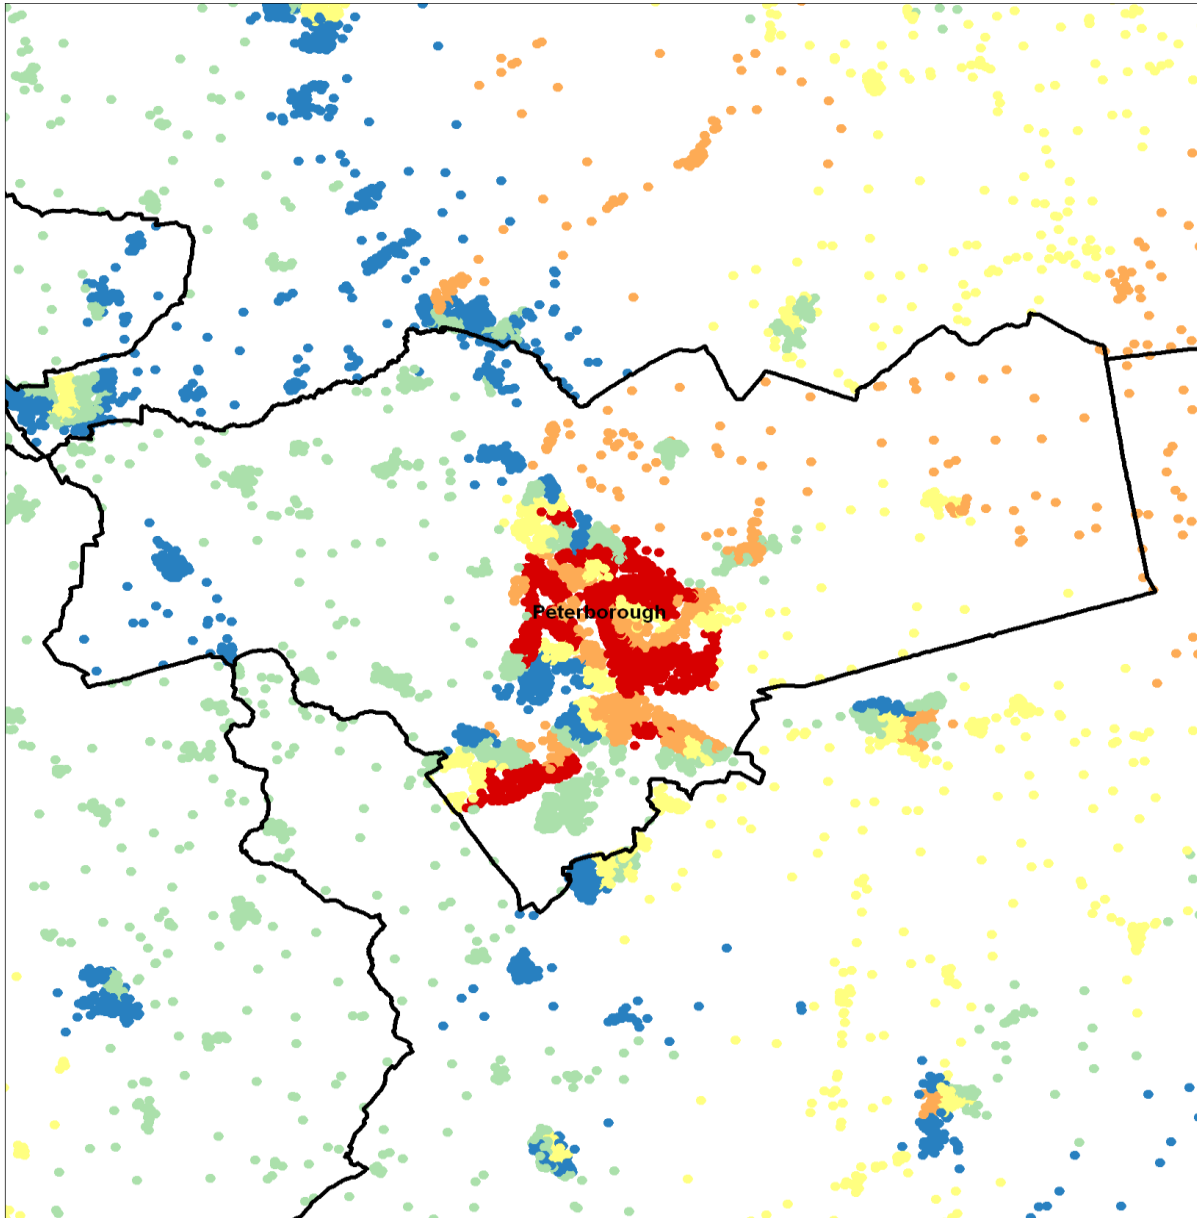

The growth rates are shown as annualised percentages and the projected England growth rate is shown for comparison.

Age	2011 population	2015 population	2011-15 p.a. growth		2020 population	2015-20 p.a. growth	
	This LA	This LA	This LA	England	This LA	This LA	England
Under 15	36,845	39,992	2.1%	1.2%	43,768	1.8%	1.4%
15-44	79,633	82,062	0.8%	0.2%	84,494	0.6%	0.2%
45-64	42,903	44,776	1.1%	0.6%	47,283	1.1%	0.7%
65-75	12,788	14,818	3.8%	3.4%	16,276	1.9%	1.0%
75-84	8,923	9,088	0.5%	1.6%	9,727	1.4%	2.3%
85+	3,365	3,710	2.5%	3.1%	4,250	2.8%	3.4%
All ages	184,457	194,445	1.3%	0.9%	205,798	1.1%	0.8%

Deprivation map

The map below shows the levels of deprivation in and around this LA, based on the Index of Multiple Deprivation 2010 (IMD2010).

The IMD2010 is calculated at Lower Super Output Area (LSOA) level. However, in this map we have given each postcode within the same LSOA the same colour, rather than shade the entire LSOA area. This presentation emphasizes where people live rather than open countryside.

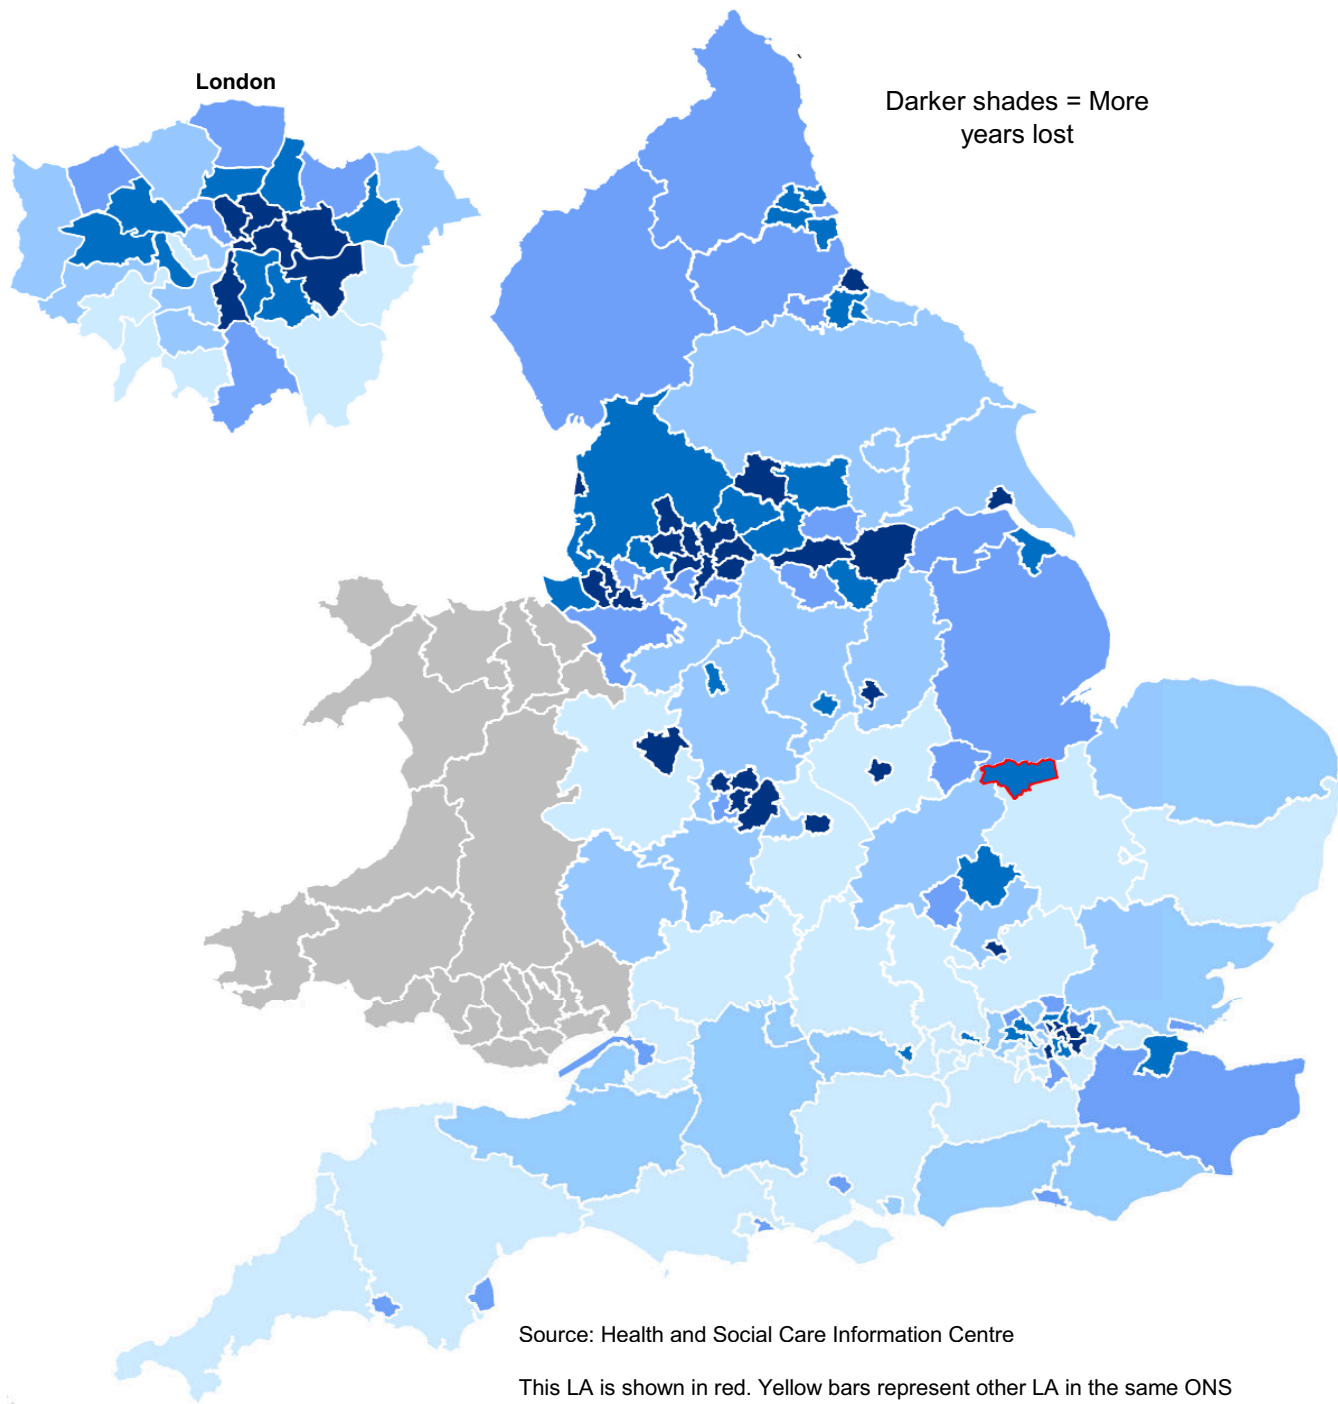

SECTION 2

NHS Outcomes Framework Indicators

NHS OF 1a Potential Years of Life Lost (PYLL) from causes considered amenable to healthcare

Age/sex standardised rate per 100,000 population

Source: Health and Social Care Information Centre

This LA is shown in red. Yellow bars represent other LA in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

NHS OF 1b(i) Life expectancy at age 75 (Males)

Number of additional years men age 75 are expected to live

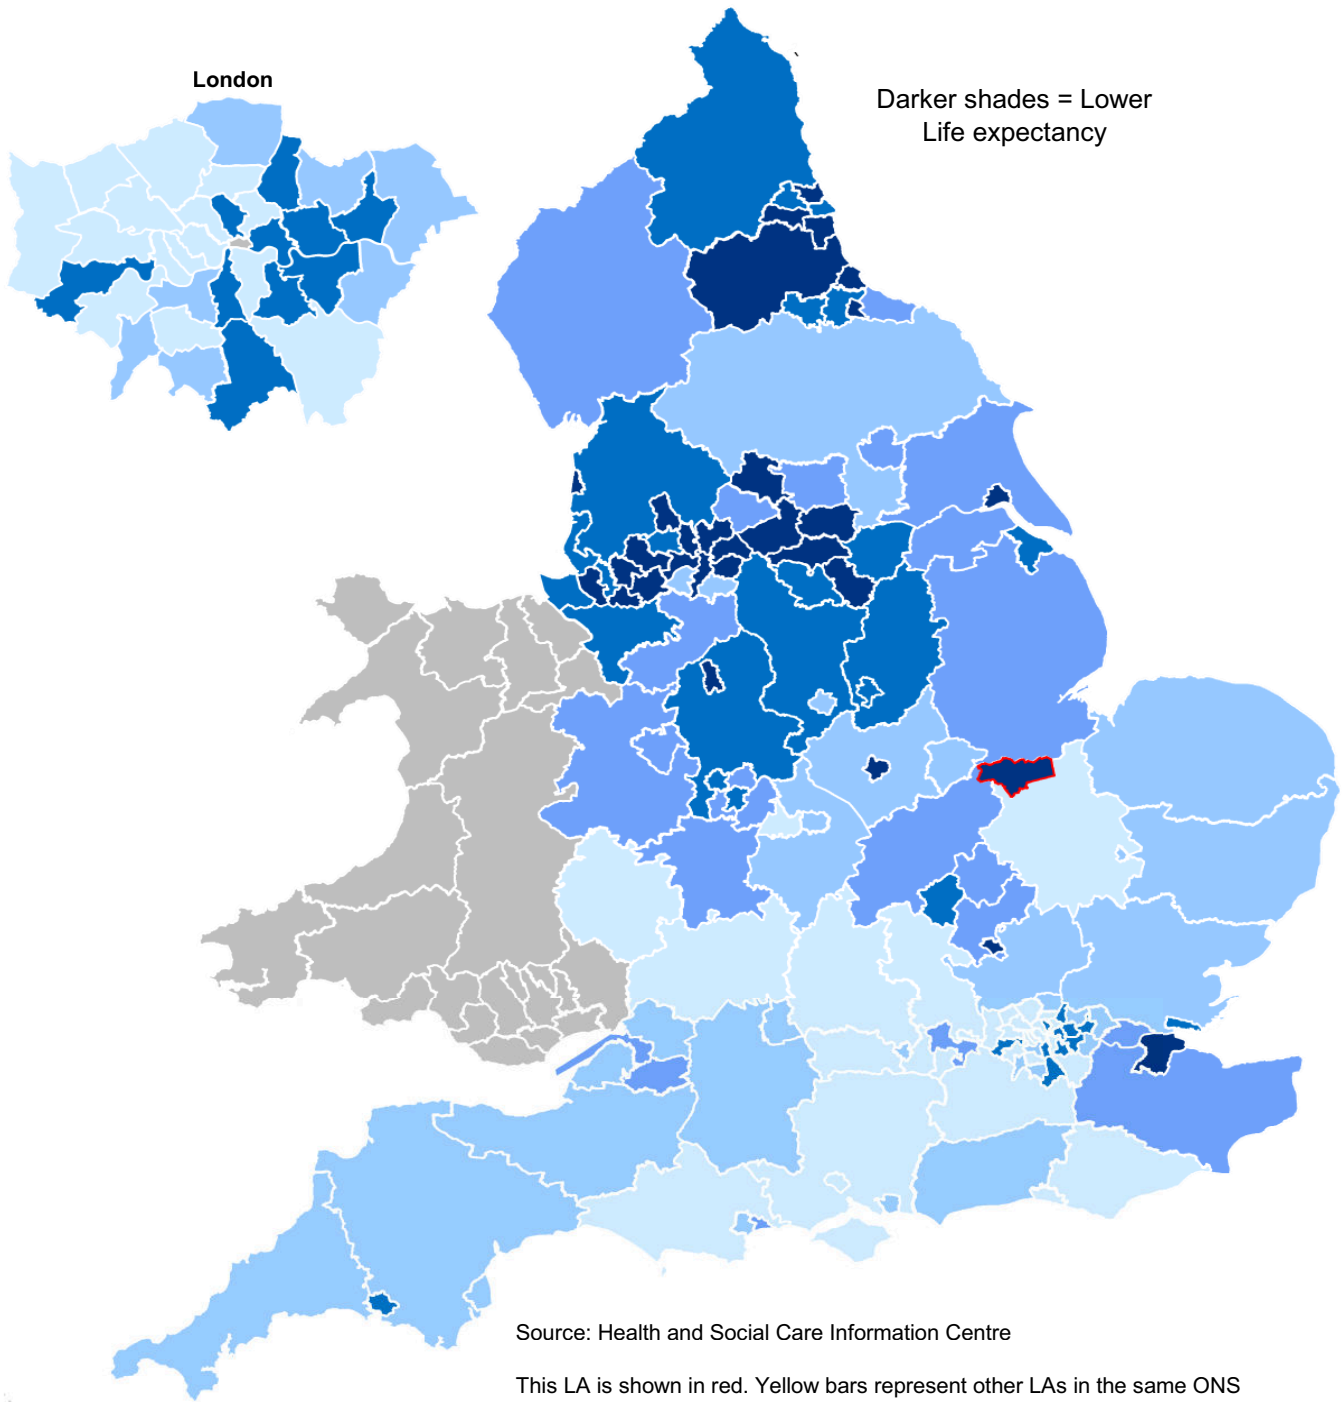

Source: Health and Social Care Information Centre

This LA is shown in red. Yellow bars represent other LA in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

NHS OF 1b(ii) Life expectancy at age 75 (Females)

Number of additional years women age 75 are expected to live

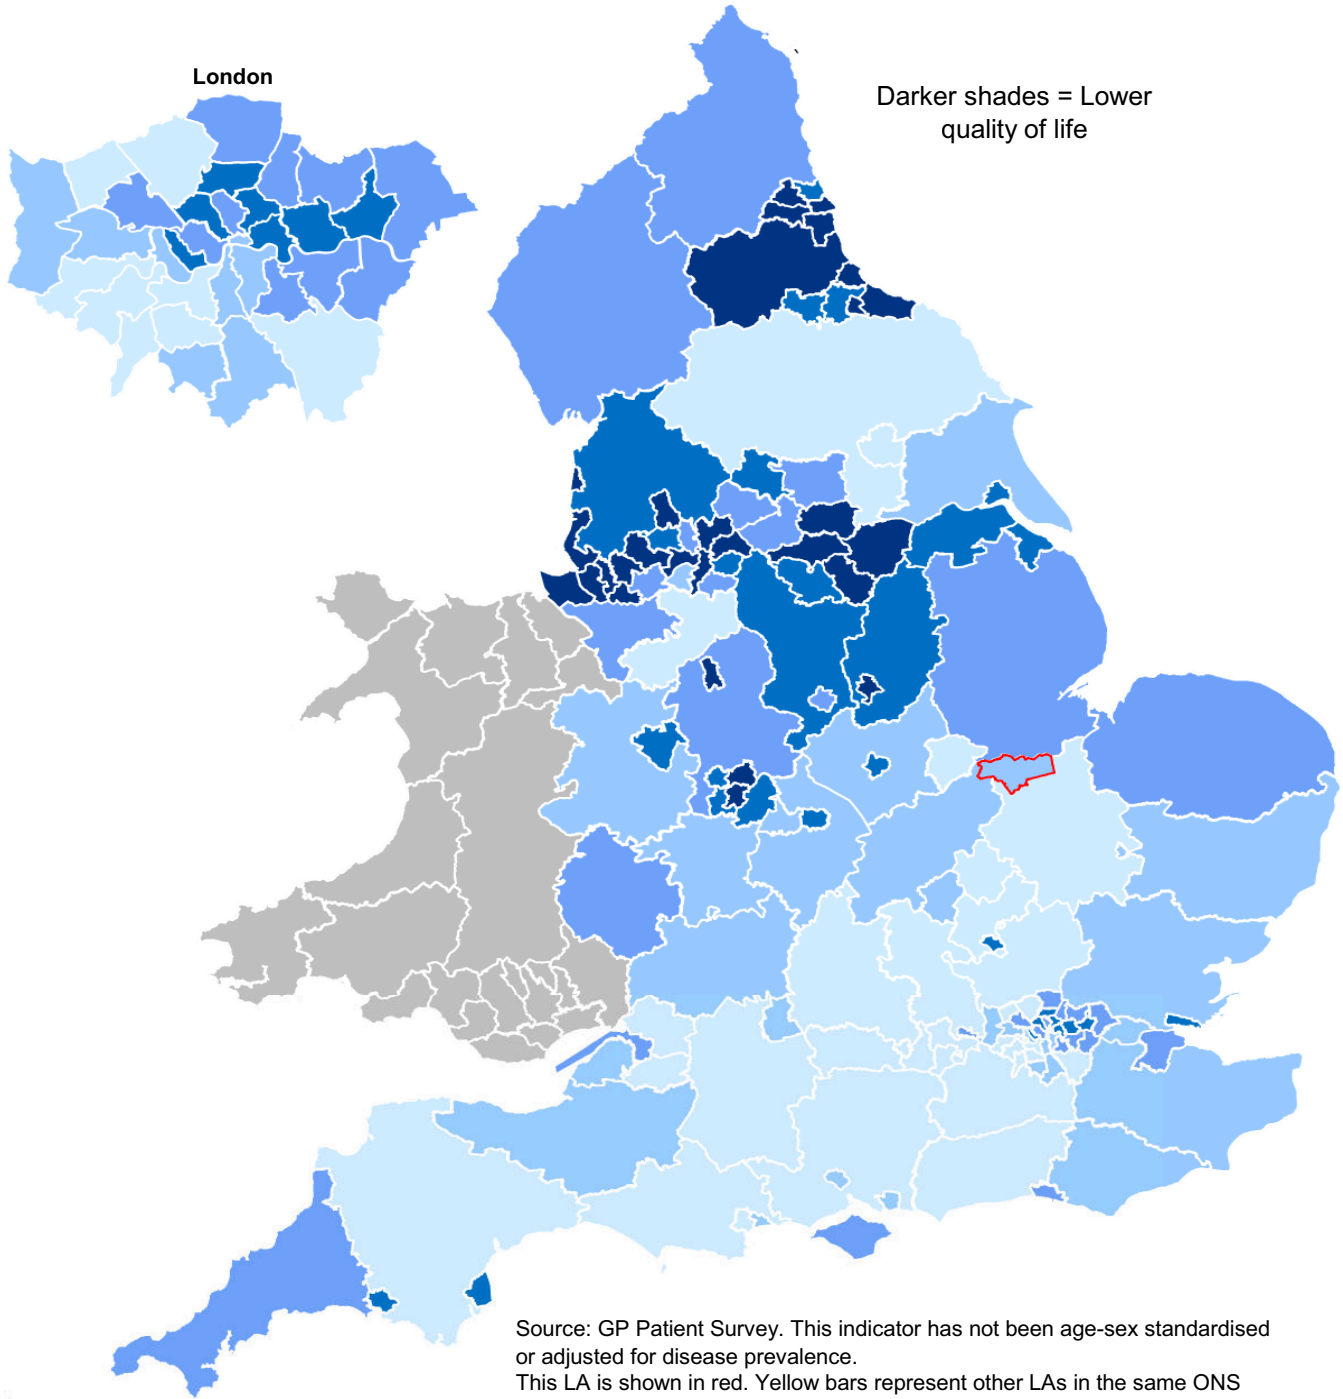

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

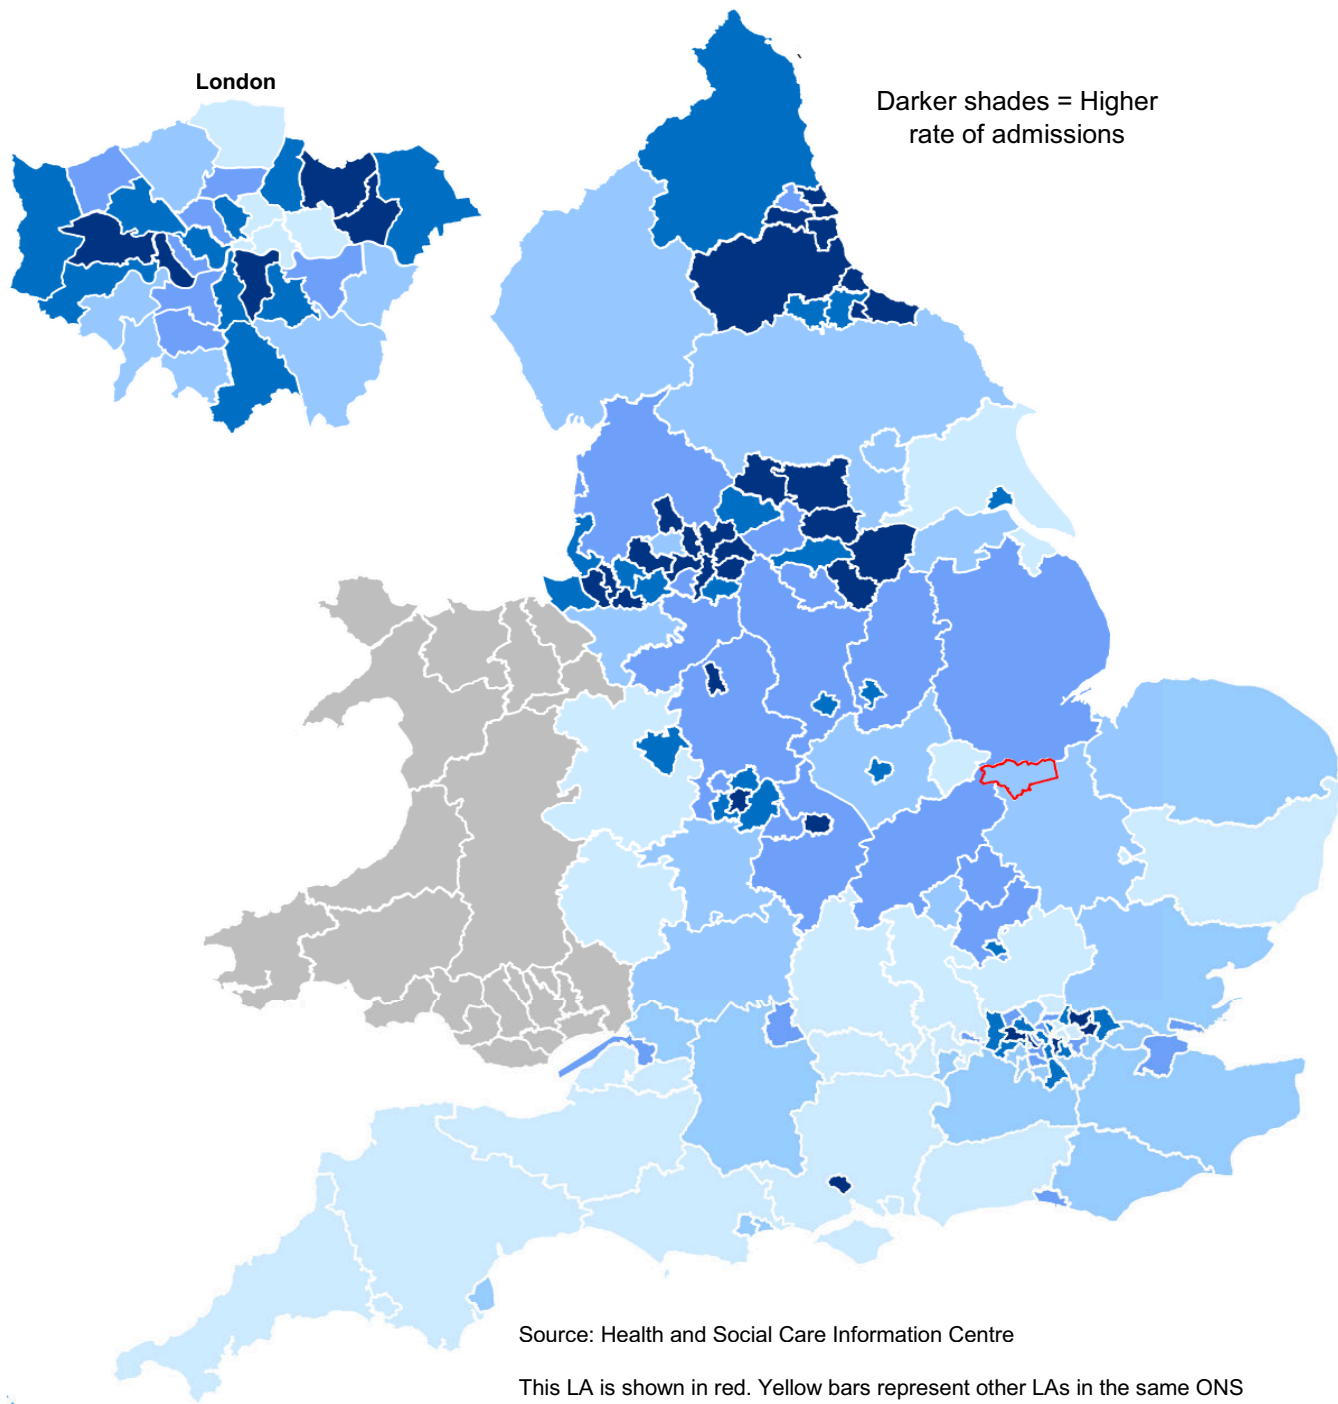

NHS OF 2 Health-related quality of life for people with long term conditions

Average EQ-5D index for people who reported having an LTCs in the GP Patient Survey

NHS OF 3a Emergency admissions for acute conditions that should not normally require hospital admission

Indirectly age/sex standardised rate per 100,000 population

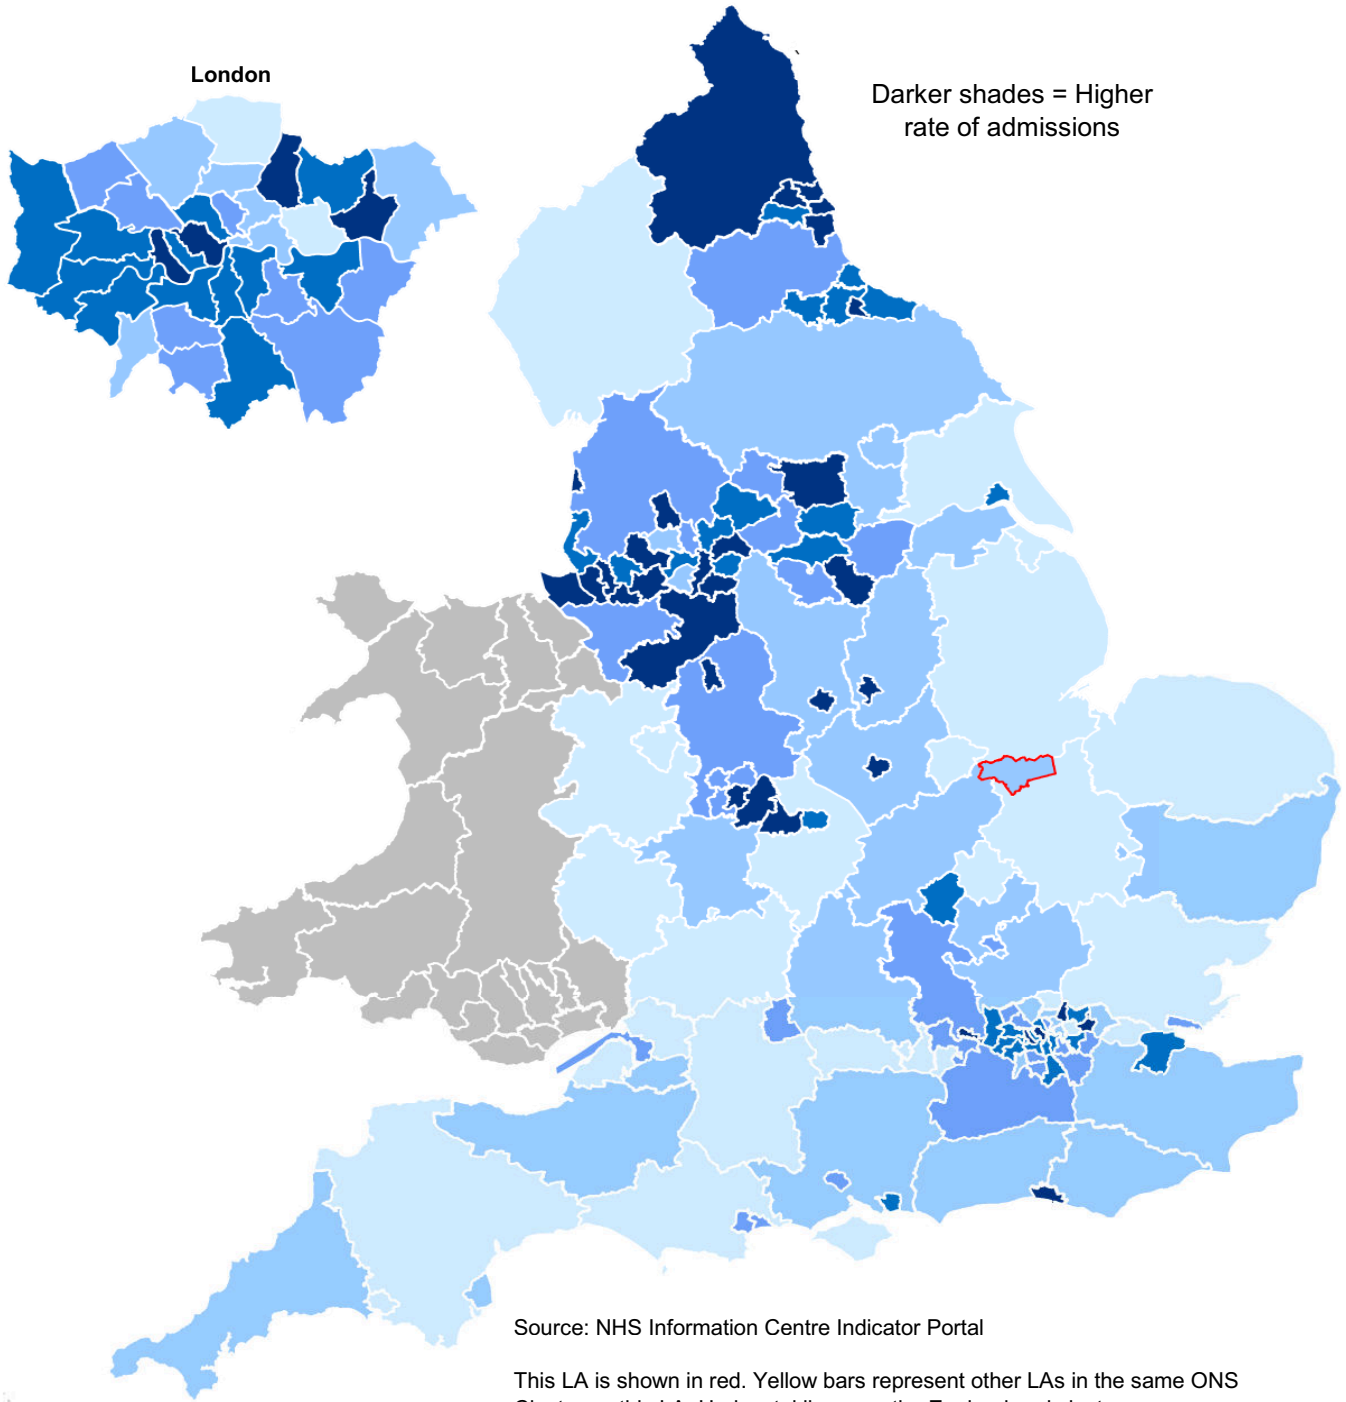

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

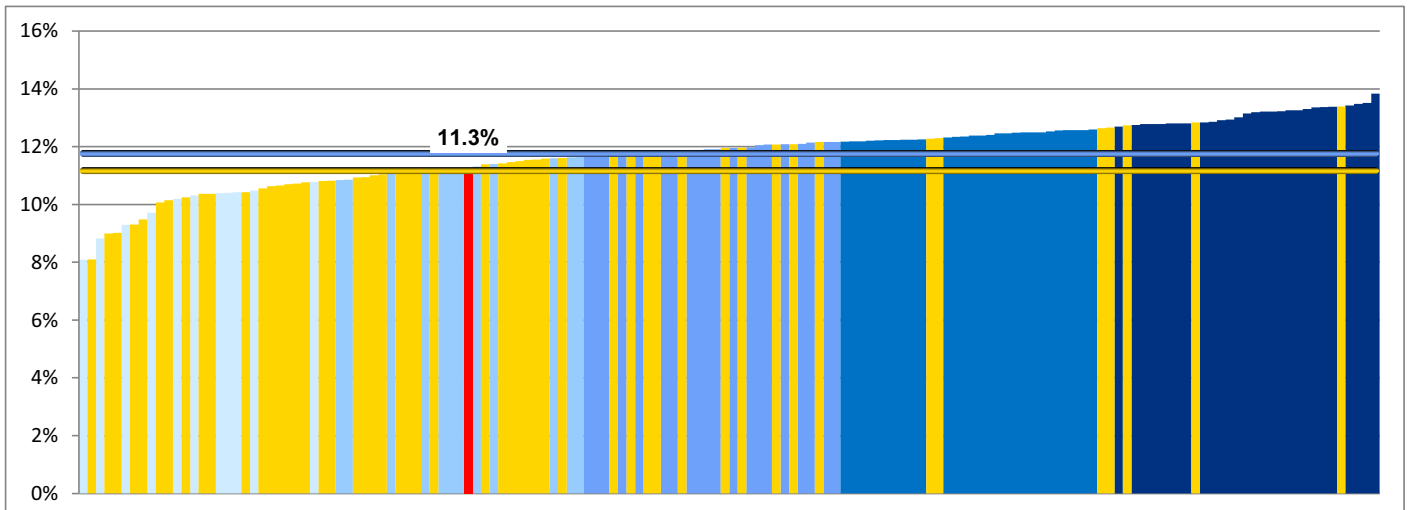

NHS OF 3b Emergency readmissions with 30 days of discharge from hospital

Percentage rate, standardised for age, sex, method of admission and diagnosis/procedure

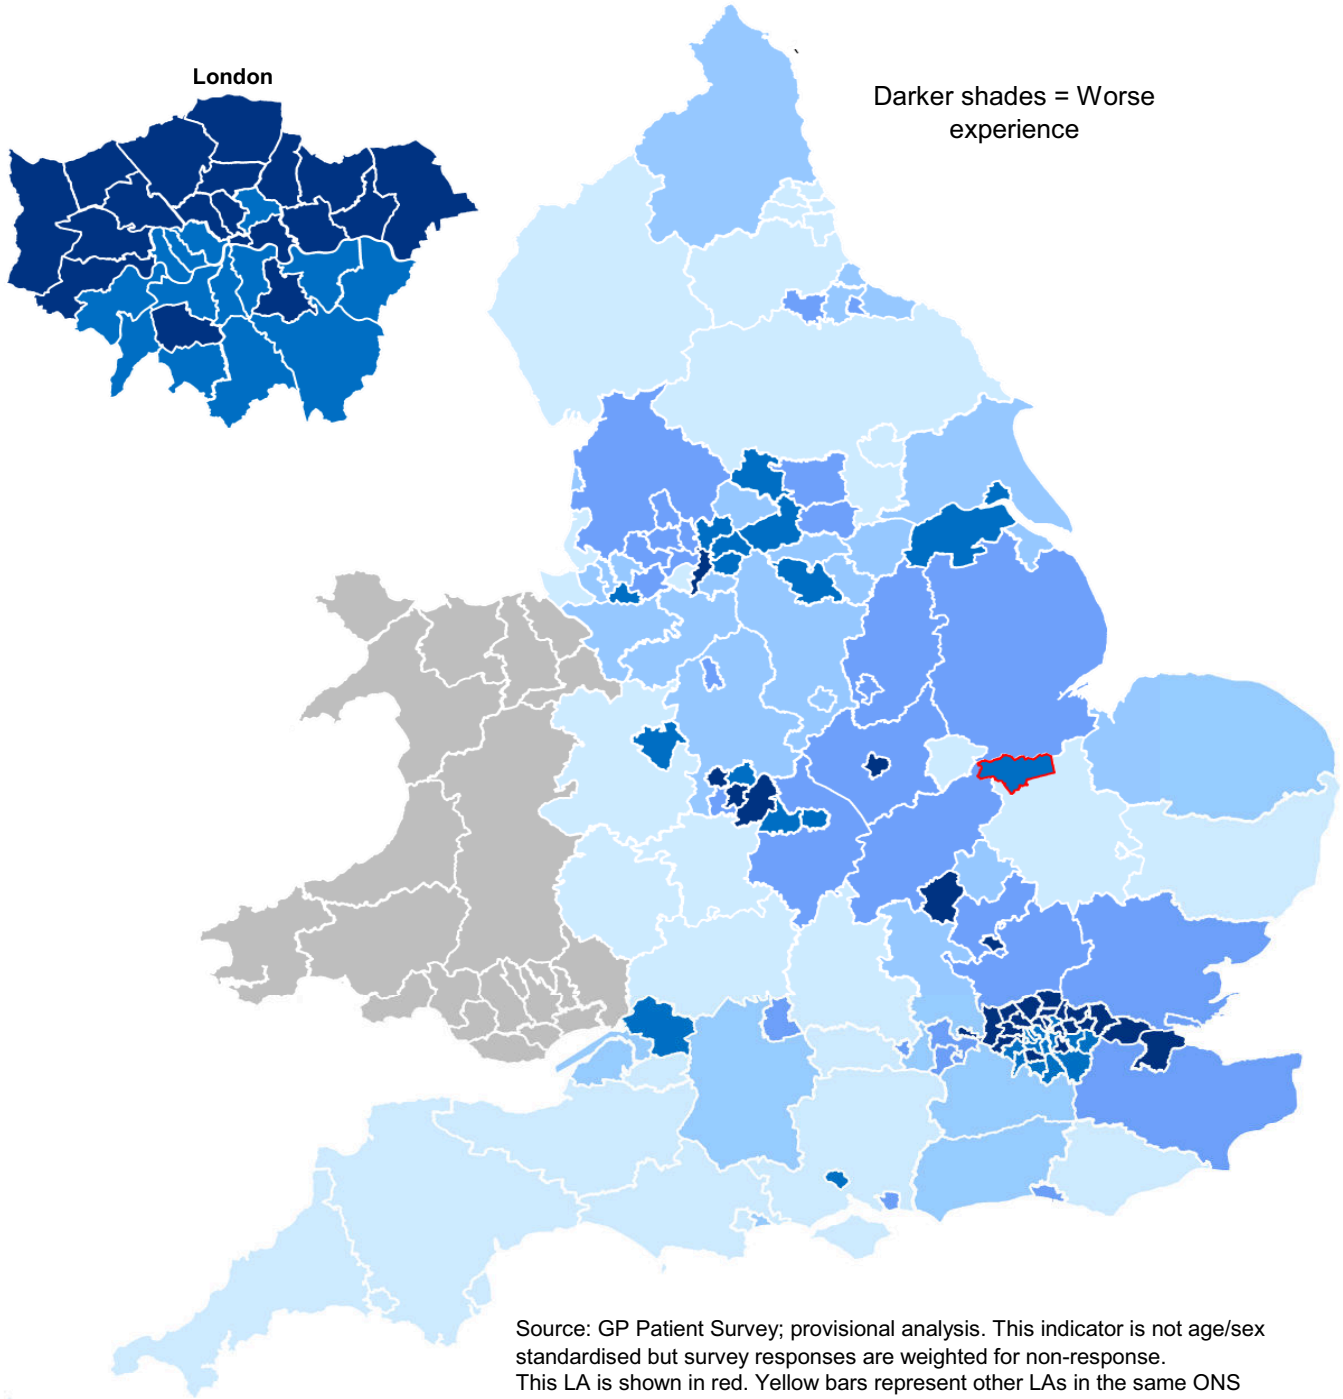

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

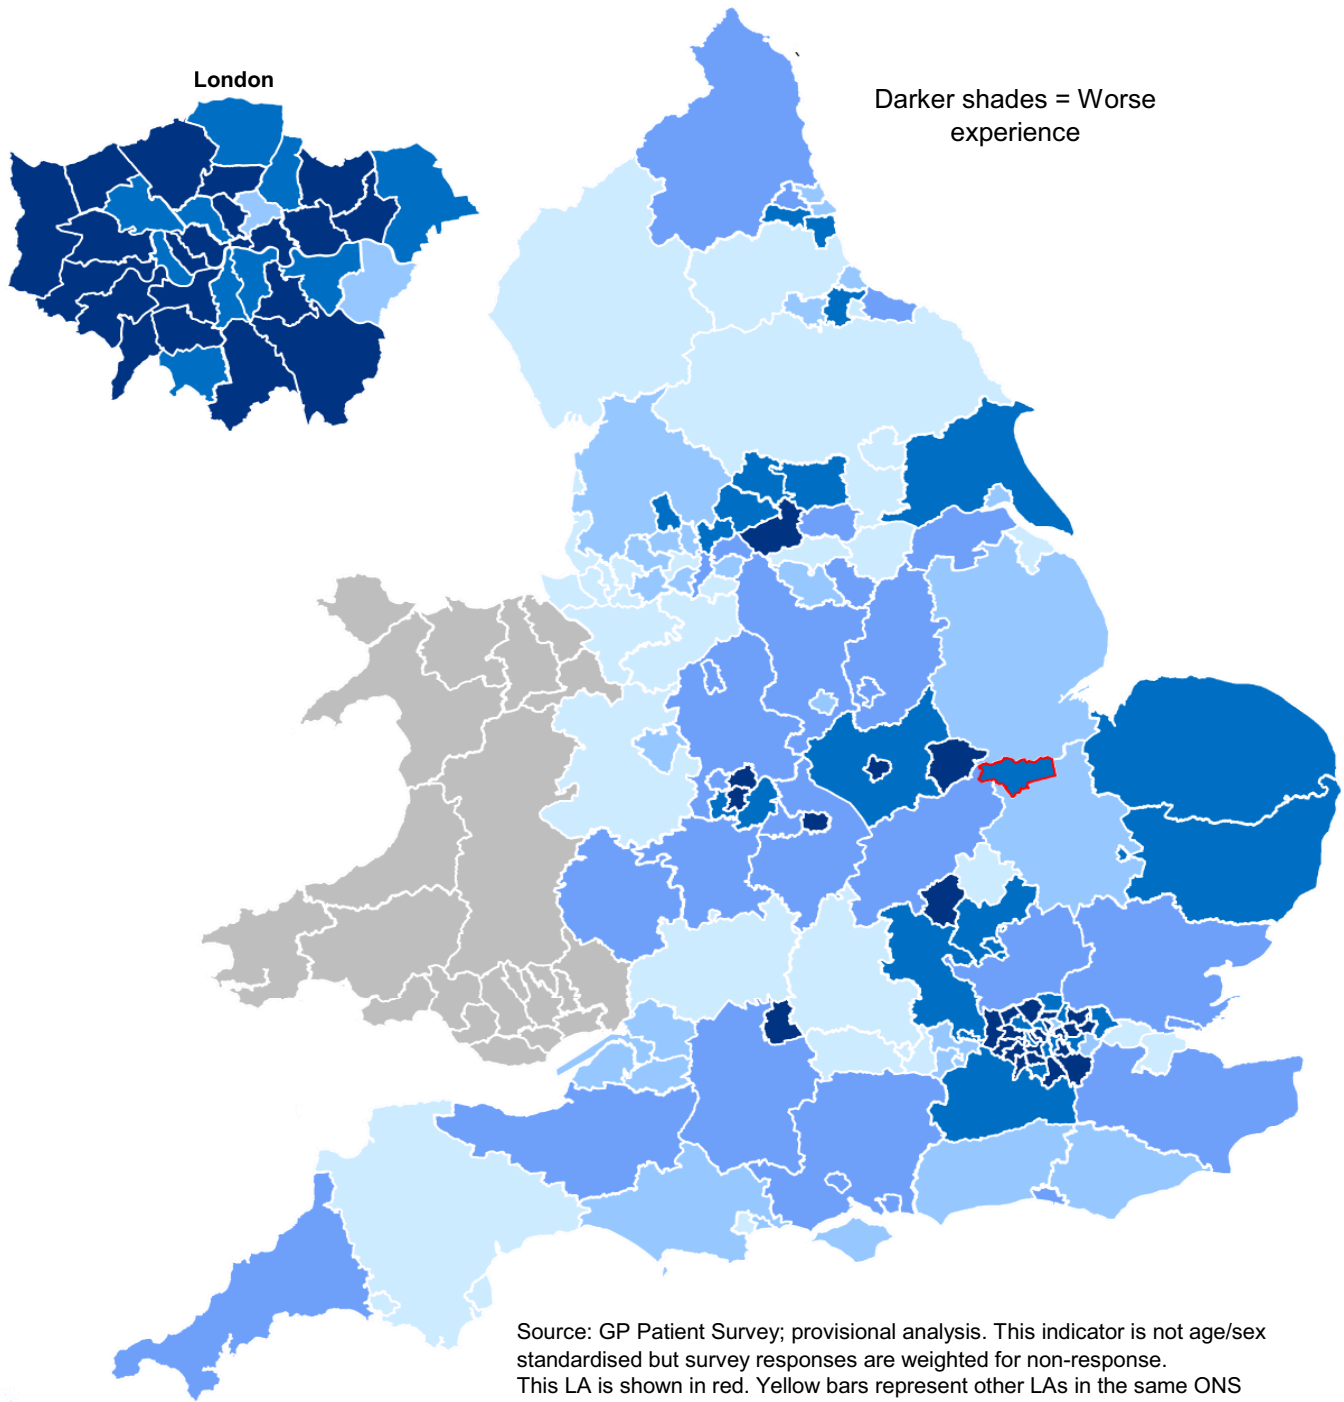

NHS OF 4a(i) Patient experience of primary care (GP services)

% of people who rate their experience of their GP surgery as "very good" or "fairly good"

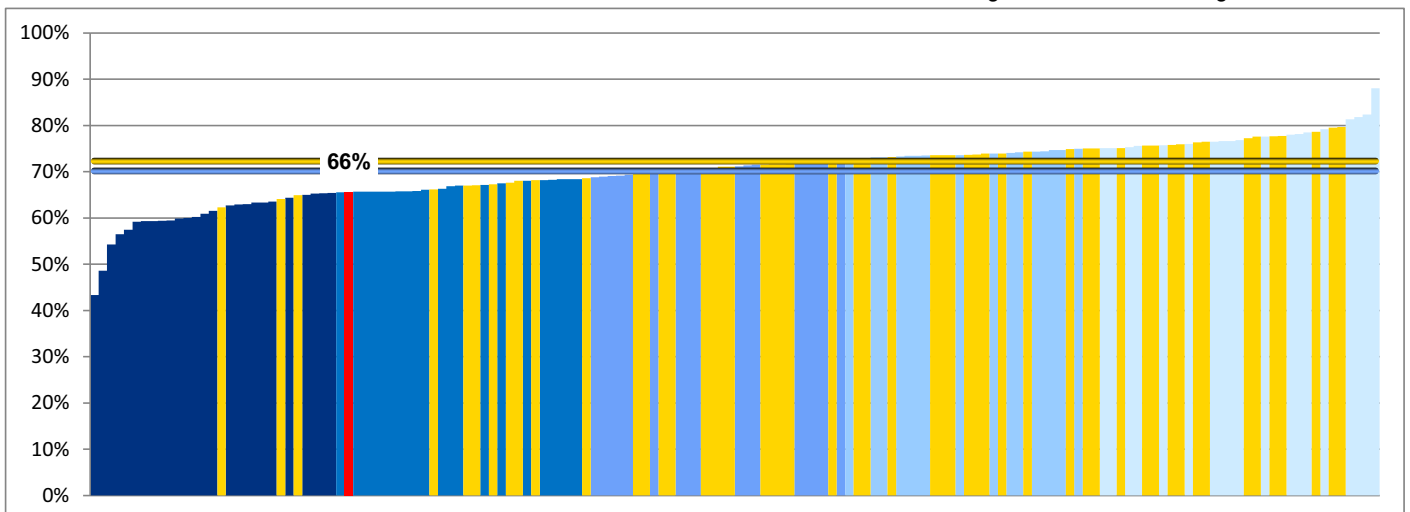

NHS OF 4a(ii) Patient experience of primary care (Out of Hours Services)

% of people who rate their experience of out-of-hours services as "very good" or "fairly good"

Source: GP Patient Survey; provisional analysis. This indicator is not age/sex standardised but survey responses are weighted for non-response. This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

NHS OF 4a(iii) Patient experience of primary care (Dentistry)

% of people who rate their experience of dentistry services as "very good" or "fairly good"

Source: GP Patient Survey; provisional analysis. This indicator is not age/sex standardised but survey responses are weighted for non-response. This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

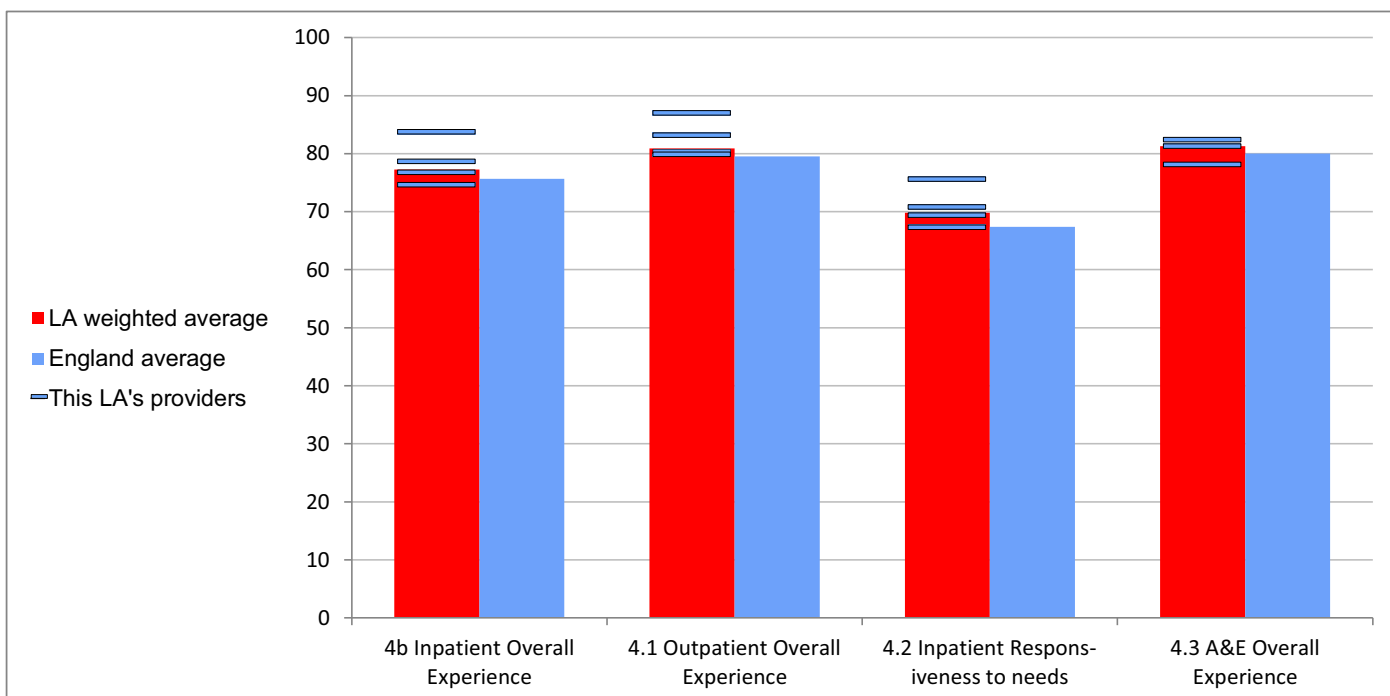

NHS OF 4b Patient experience of hospital care

Composite experience scores (out of 100) at this LA's main 5 providers

The table below shows the composite score based on people who reported that their experience was "very good" or "fairly good" in various patient surveys.

Note that these scores refer to all patients surveyed at the providers and do not refer specifically to this LA's patients. To give additional context, this page includes additional indicators 4.1-4.3 from the NHS Outcomes Framework.

Providers (ordered by number of admissions) for this LA's residents	Number of Admissions / spells (Acute 2010/11)	4b Inpatient Overall Experience	4.1 Outpatient Overall Experience	4.2 Inpatient Responsiveness to needs	4.3 A&E Overall Experience
Peterborough & Stamford Hospitals NHS FT	11,141	77	80	69	81
Papworth Hospital NHS FT	817	84	87	76	NA
Cambridge Univ Hospitals NHS FT	609	79	83	71	82
Ramsay Healthcare UK Operations Ltd	487	NA	NA	NA	NA
University Hospitals of Leicester NHS Trust	148	75	80	67	78
LA weighted average		77	81	70	81
England Average		76	80	67	80

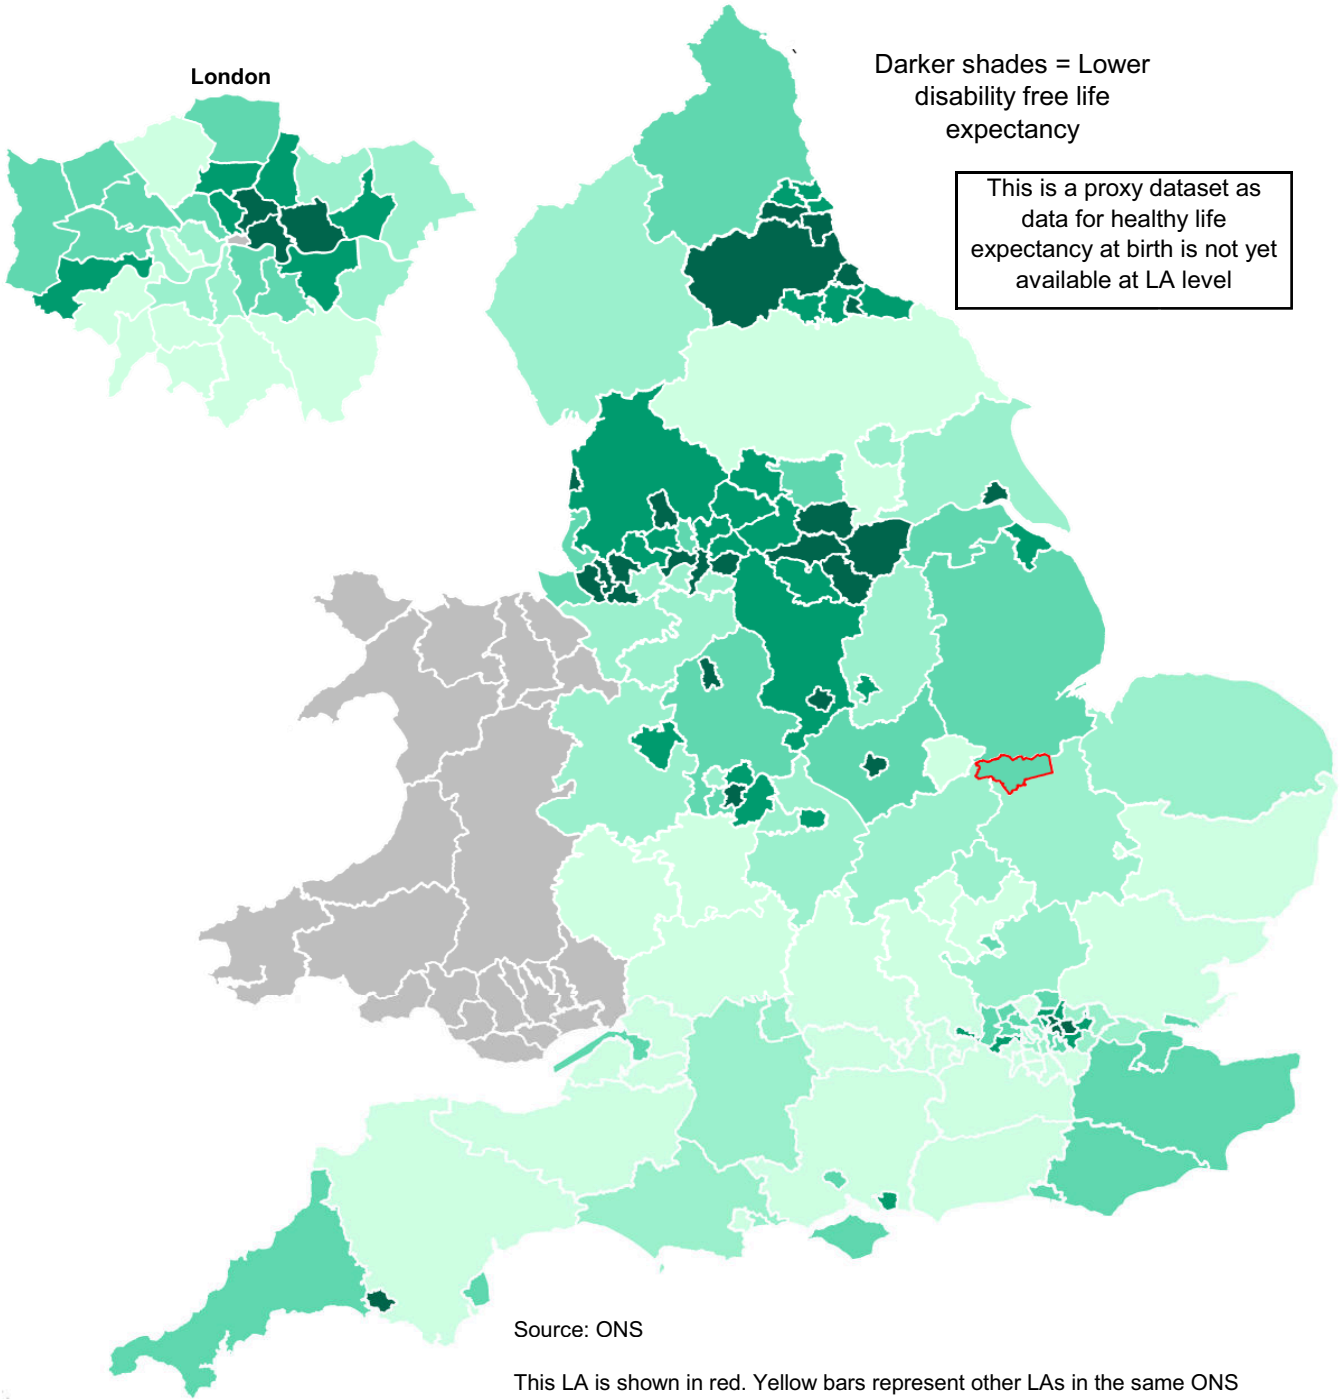

SECTION 3

Public Health Outcomes Framework Indicators

PH OF 0.1i Proxy for healthy life expectancy at birth

Disability Free Life Expectancy (DLFE) at age 16 for males and females combined

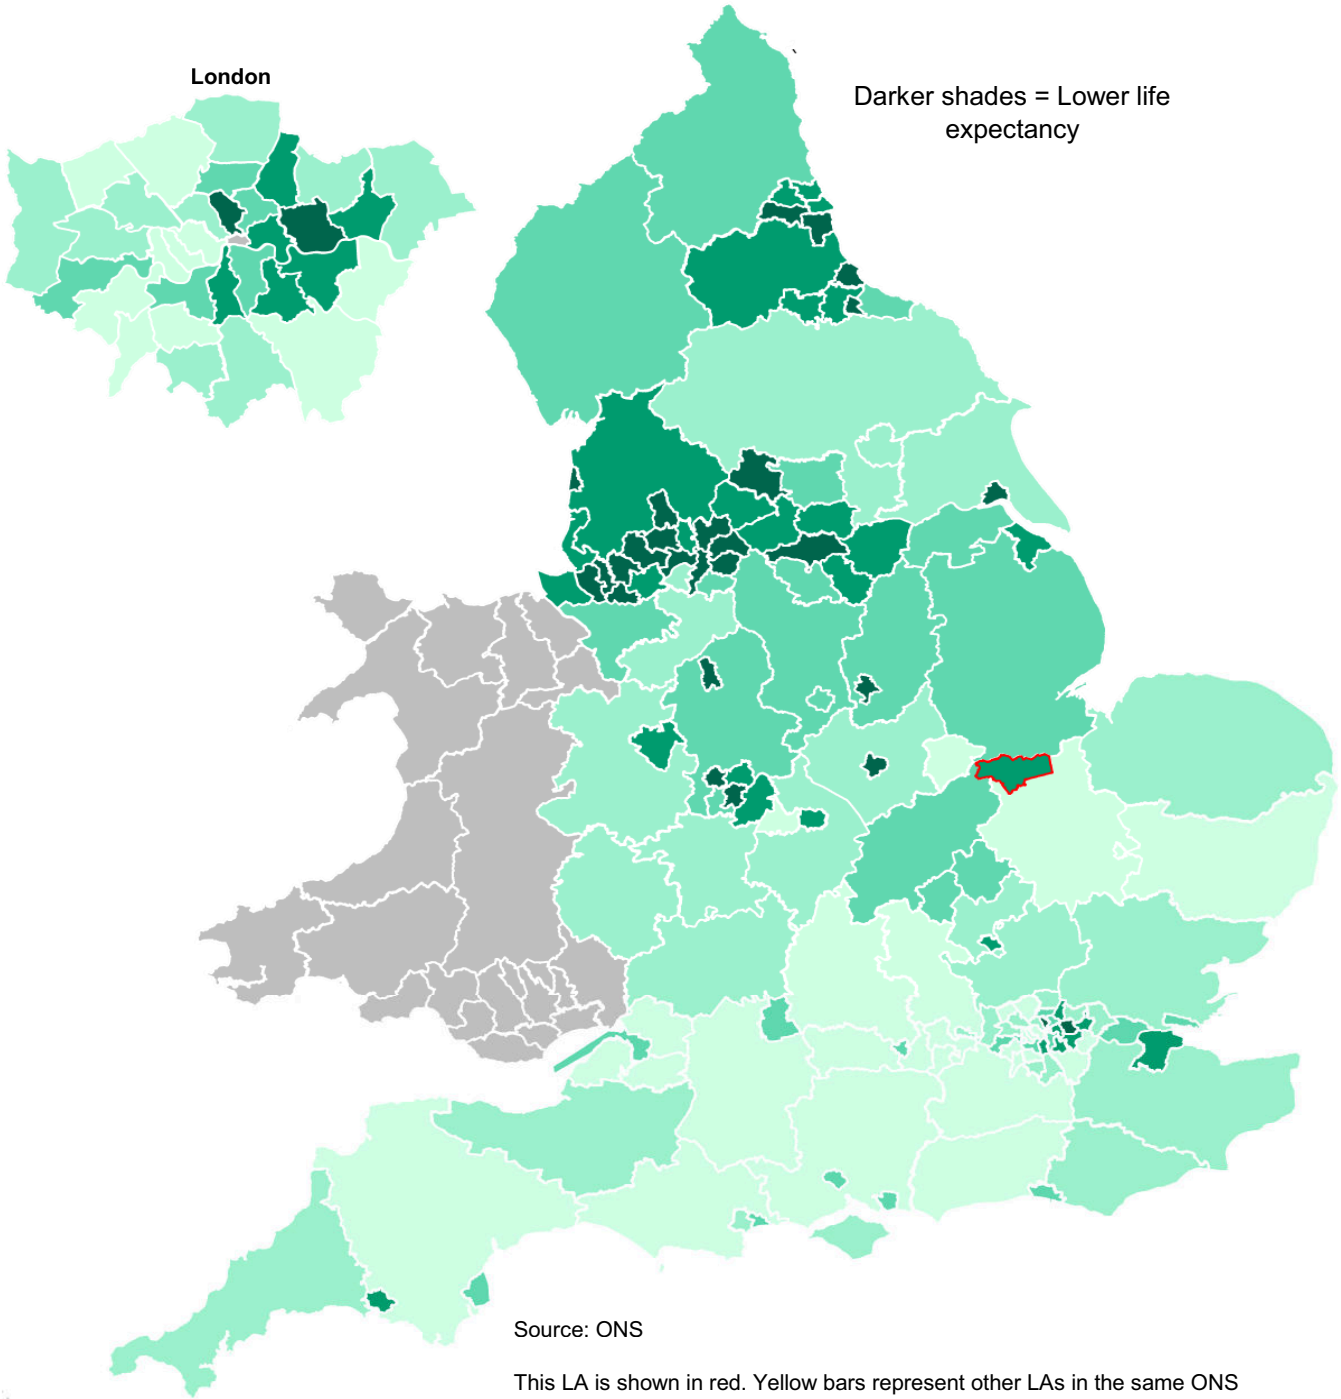

Source: ONS

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

PH OF 0.1ii Life expectancy at birth

Life expectancy at birth for males and females combined

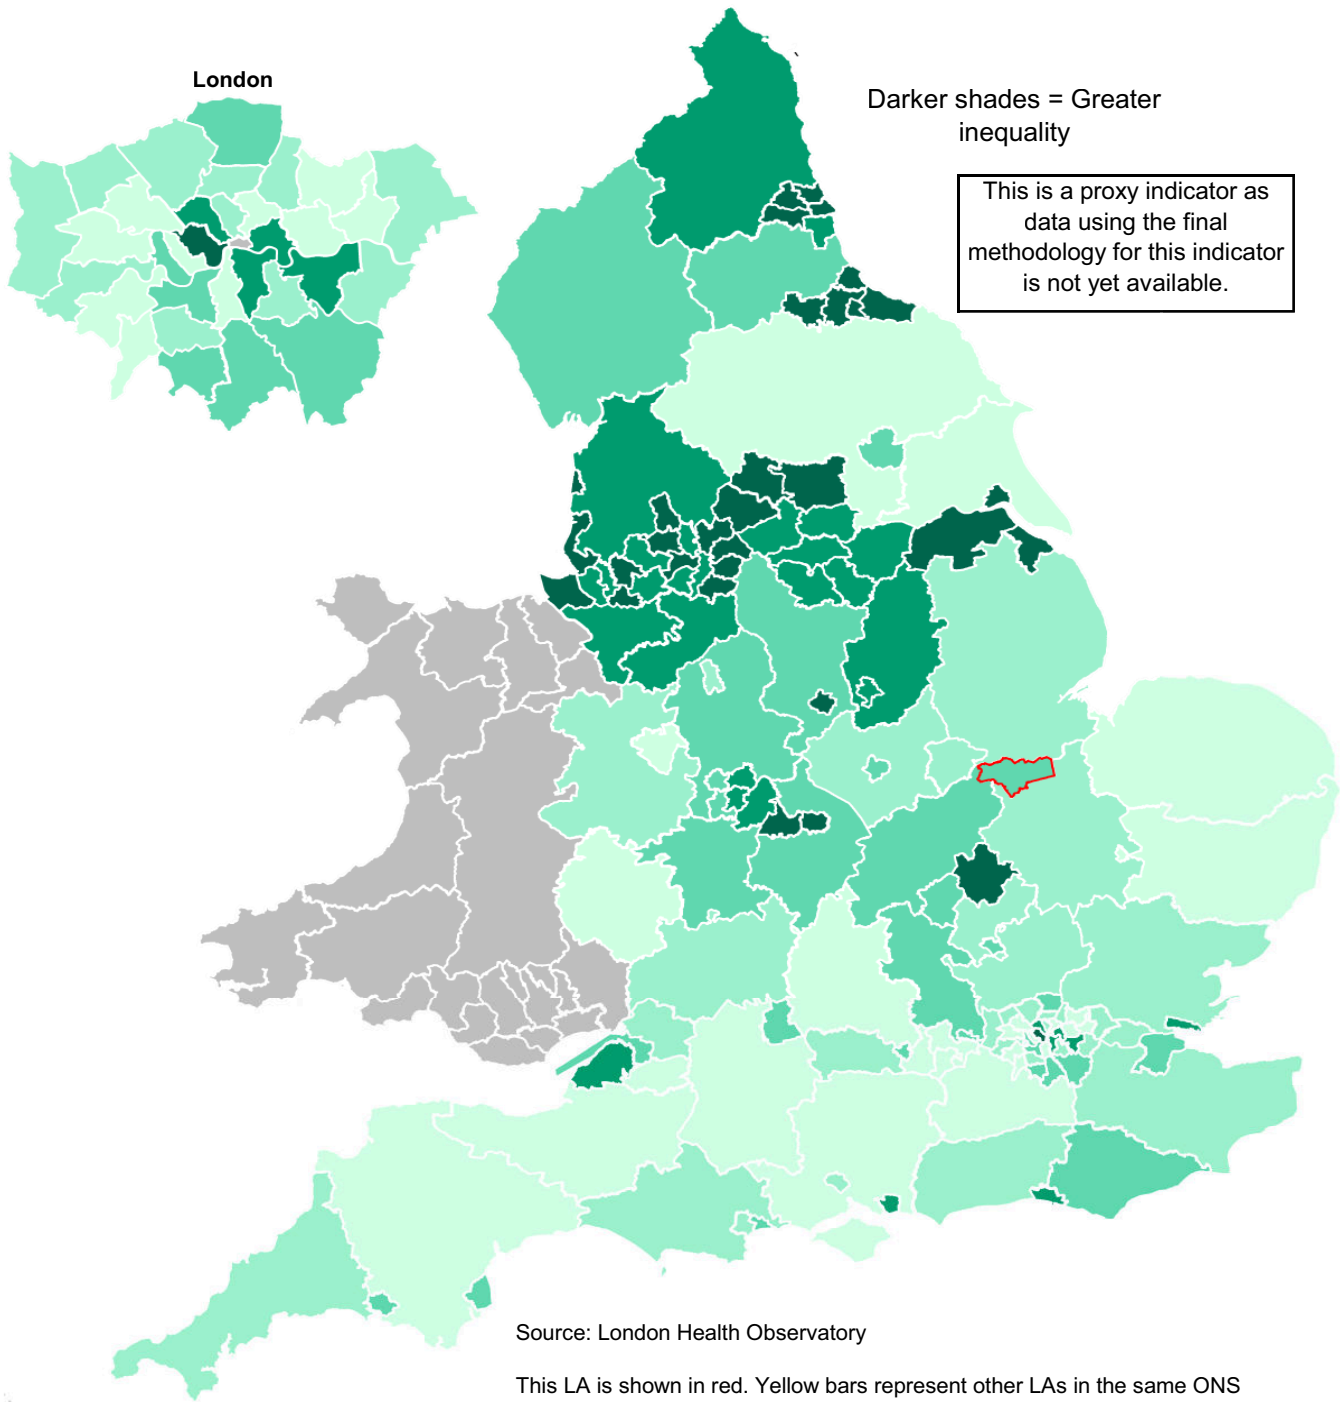

Source: ONS

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

PH OF 0.2iii Slope Index of Inequality in life expectancy at birth

Slope Index of Inequality (SII) in life expectancy for males and females combined

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

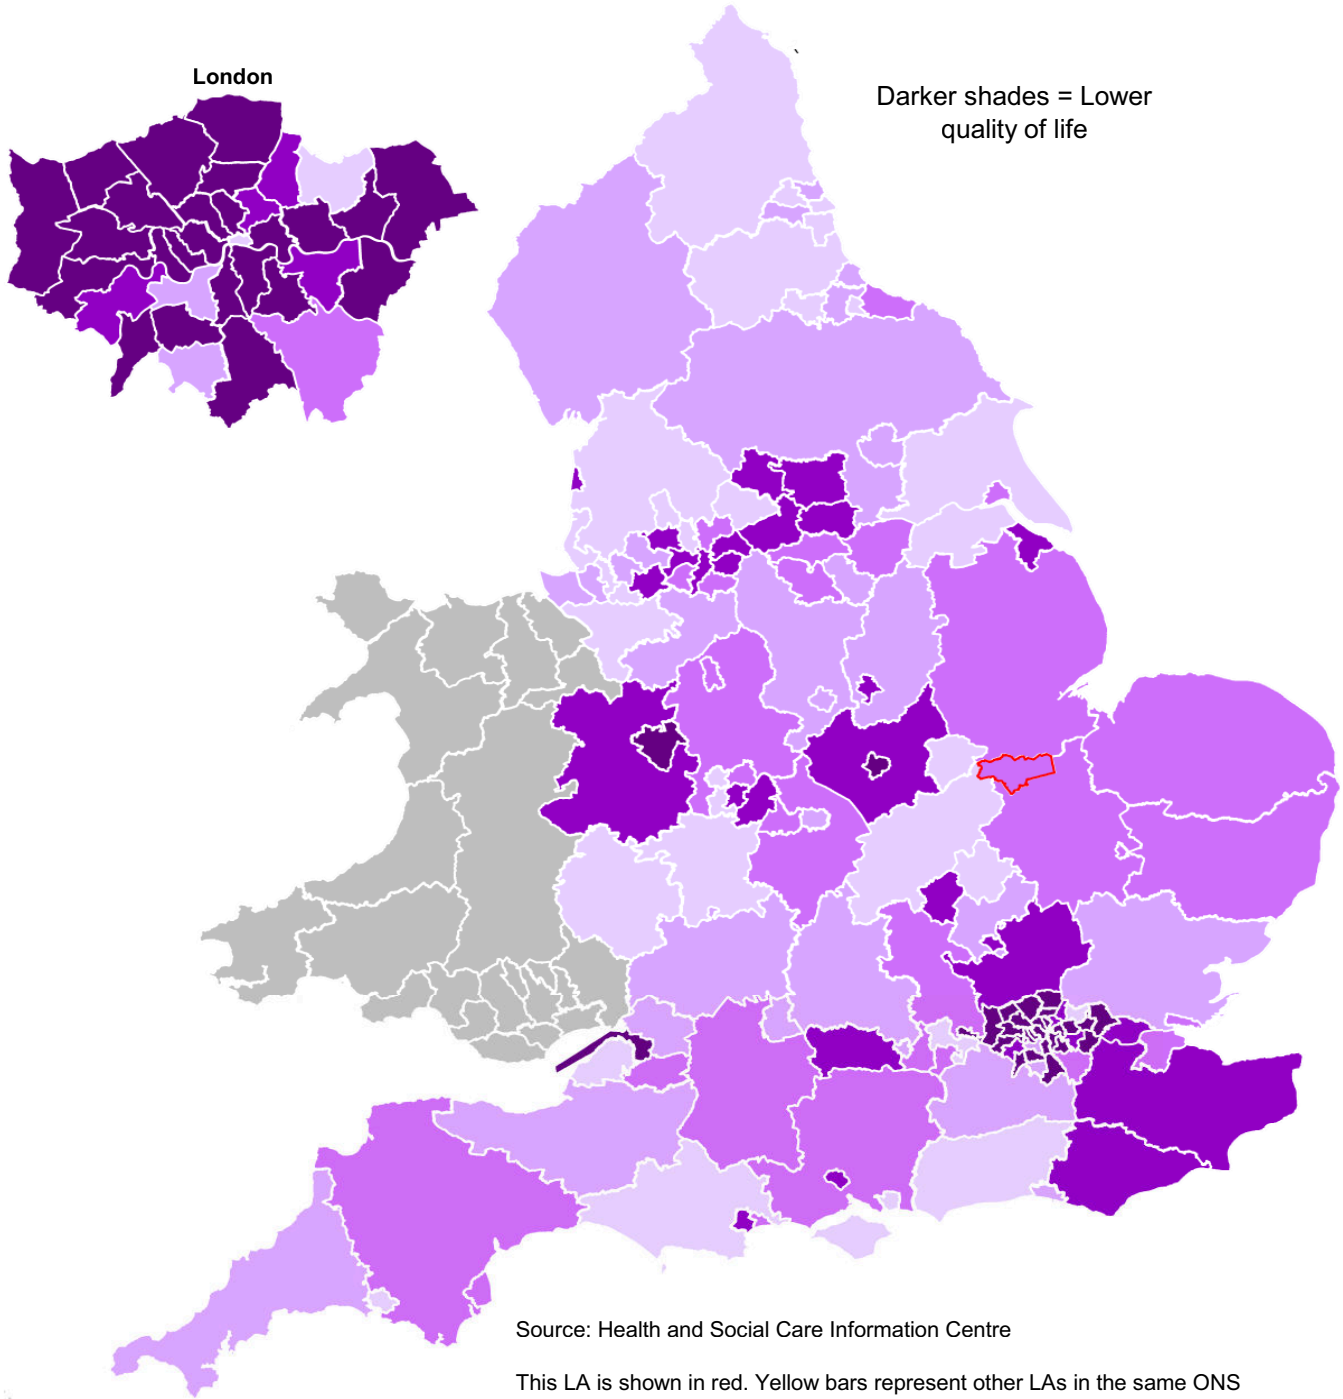

SECTION 4

Adult Social Care Outcomes Framework Indicators

Adult Social Care OF 1A Social care-related quality of life

Average quality of life score based on responses to the Adult Social Care Survey

Source: Health and Social Care Information Centre

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

Adult Social Care OF 2A(1) Permanent admissions to residential and nursing care homes for people age 18-64

Rates per 100,000 population age 18-64

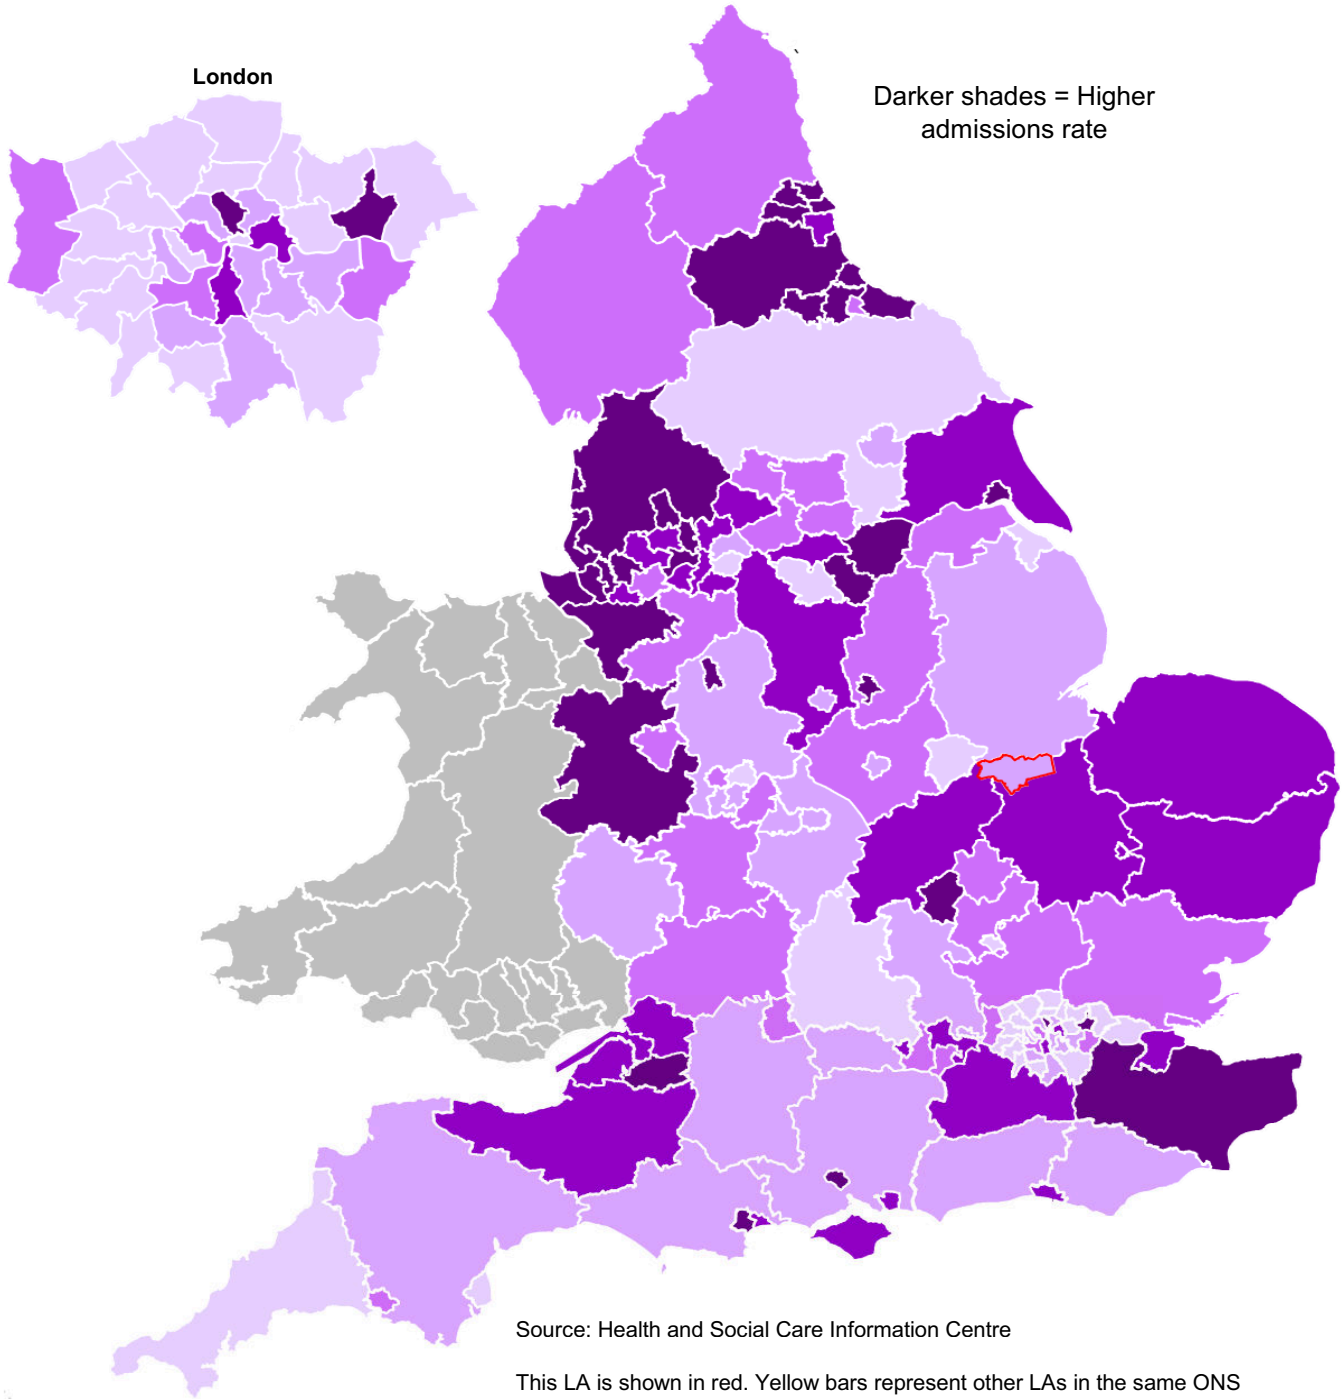

Source: Health and Social Care Information Centre

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

Adult Social Care OF 2A(2) Permanent admissions to residential and nursing care homes for people age 65+

Rates per 100,000 population age 65+

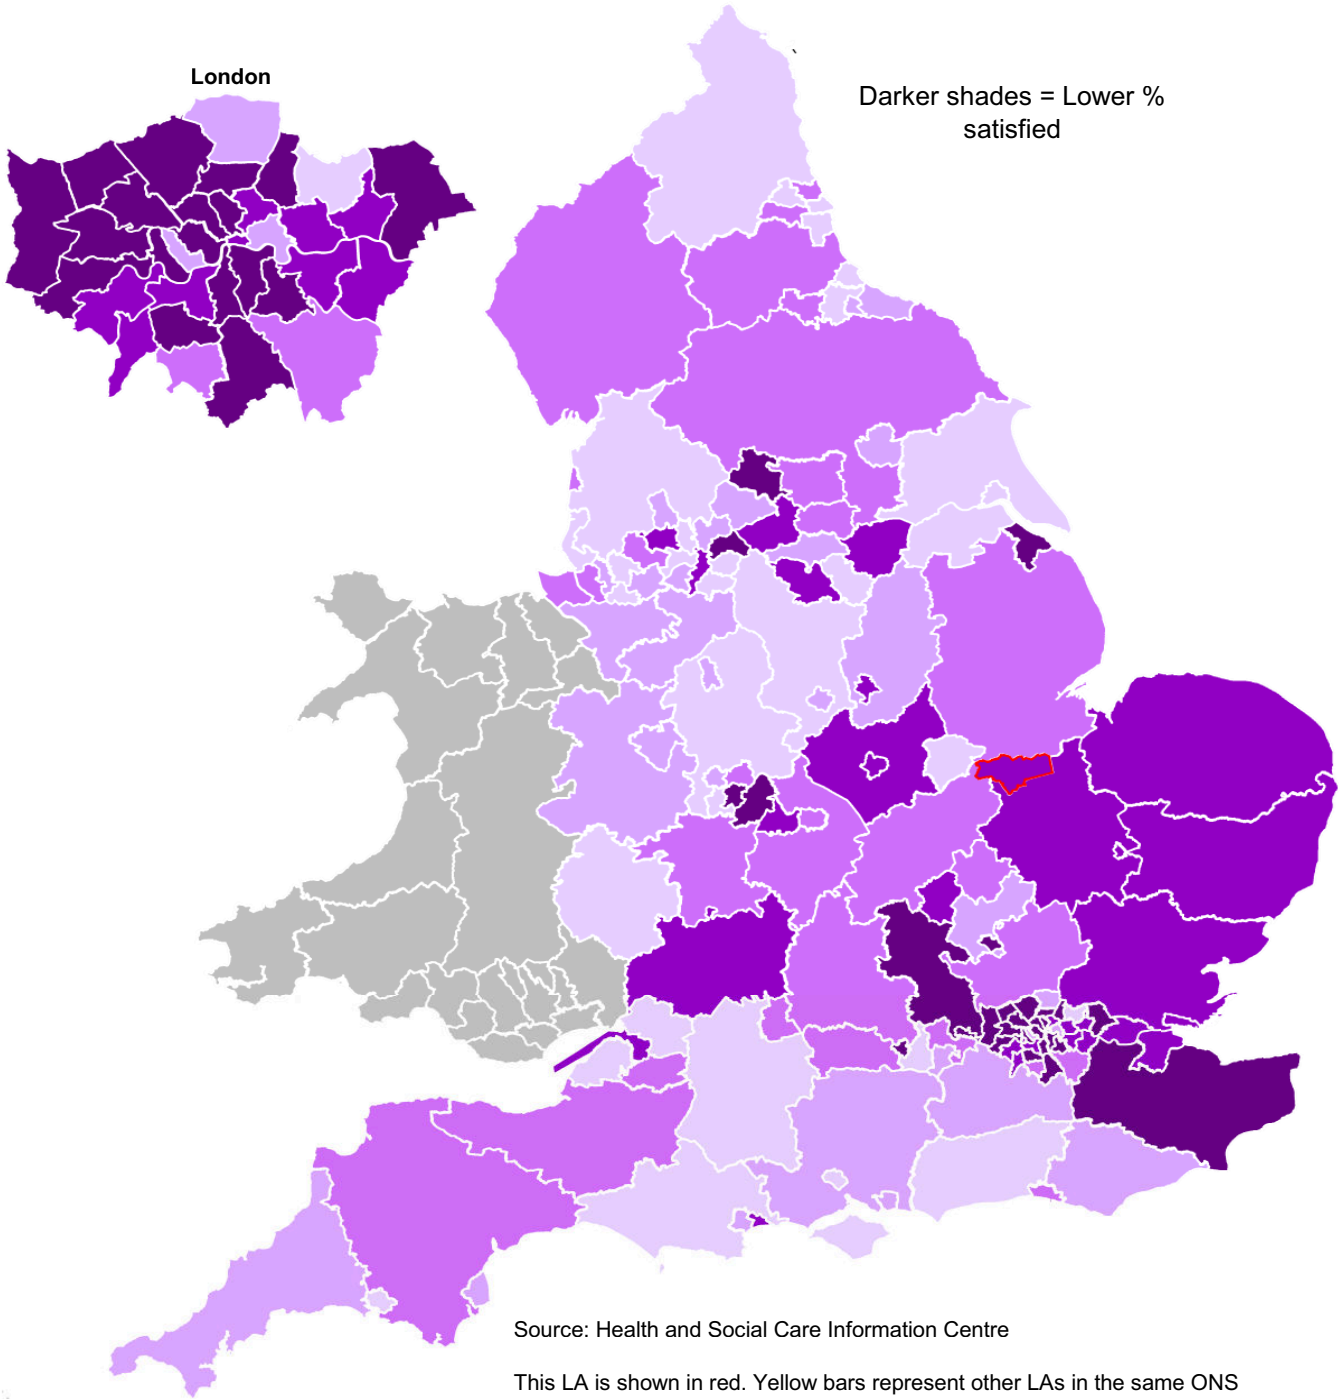

Source: Health and Social Care Information Centre

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

Adult Social Care OF 3A Overall satisfaction of people who use services with their care and support

% of people who rate their satisfaction as "very" or "extremely" satisfied

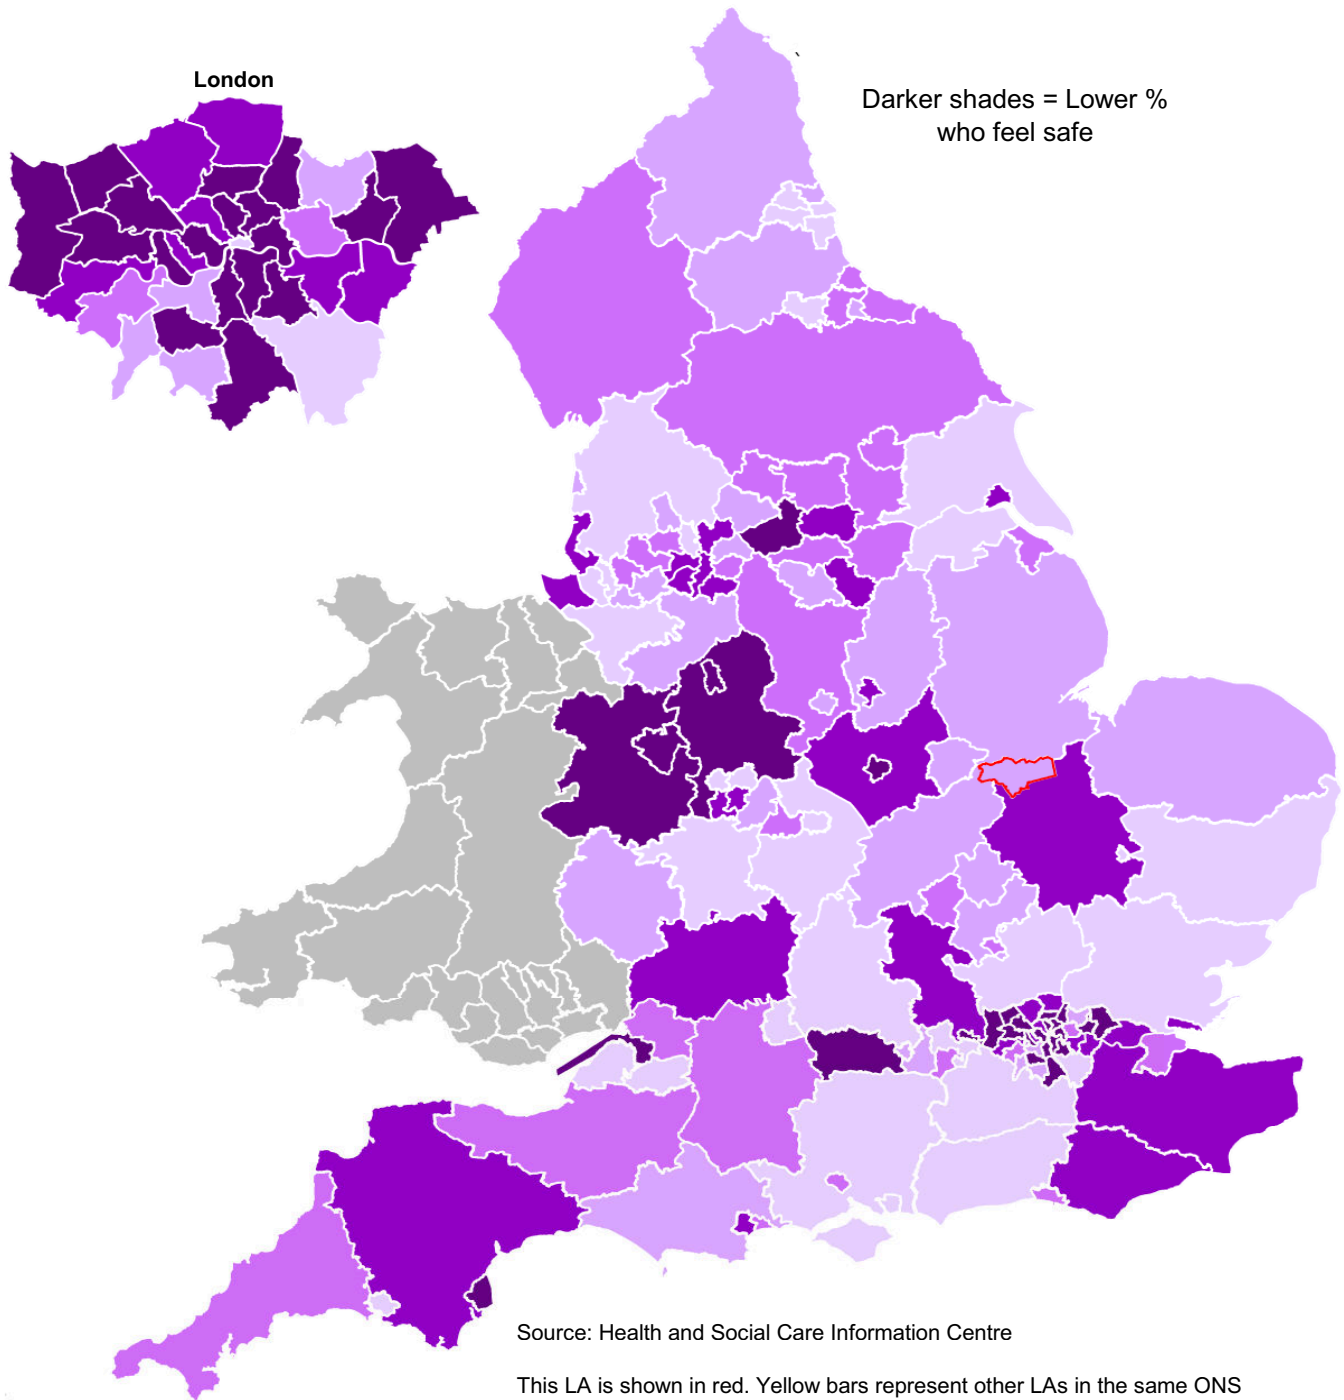

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

Adult Social Care OF 4A Proportion of people who use services who feel safe

% of people who say they "feel as safe as they want"

This LA is shown in red. Yellow bars represent other LAs in the same ONS Cluster as this LA. Horizontal lines are the England and cluster averages.

SECTION 5

Main CCGs for this LA's residents

CCGs of GP Practice registration for this LA's residents

CCGs (ordered by number of residents in this LA)	Number of People
NHS Cambridgeshire and Peterborough CCG	191,831
NHS South Lincolnshire CCG	8,202
Unknown (Special lists)	226
NHS East Leicestershire and Rutland CCG	13
Others	0
Total	200,273

The first table shows the CCG(s) that this LA's residents are registered with.

The tables below then show which other LAs these CCGs' registered patients live in. (Up to 4 CCGs are shown.)

NHS Cambridgeshire and Peterborough CCG	No. of People	NHS South Lincolnshire CCG	No. of People
Cambridgeshire	625,498	Lincolnshire	141,707
Peterborough	191,831	Peterborough	8,202
Hertfordshire	18,728	Rutland	4,397
Northamptonshire	14,426	Northamptonshire	1,415
Norfolk	6,513	Cambridgeshire	608
Bedford	3,424	Norfolk	326
Lincolnshire	1,710		
Suffolk	1,392		
Essex	1,146		
Rutland	115		
Other	36	Other	0
Total	864,819	Total	156,656
