

APPENDIX B

Cambridgeshire & Peterborough Local Health and Care Economy Strategic Planning Concordat

Our commitments

As the leaders and regulators of the local health and care system, we commit to working together to develop a system-wide strategic plan that will:

- embed a common vision in which the needs of the local population come first
- create a health and care system that works in a joined up way, focuses on improving health and well-being and that is accountable to the local population
- establish a culture where it is the collective and individual responsibility to do the right thing, even if to do so is not in the best interests of our own organisation
- create a more productive and financially sustainable health and care system

Our values

We will:

- Place local people at the centre of everything we do
- Empower people to stay healthy
- Focus on improving quality and outcomes
- Be transparent in our actions

Practical actions

To this end we commit to these actions:

- Our Boards will sign up to the development of a system-wide strategic plan and will share responsibility to both champion and deliver the content.
- Each organisation will contribute resources to the design and implementation of the strategic plan
- Prioritising changes that improve outcomes and quality, whilst delivering financial sustainability
- Ensuring that the initiatives within the strategic plan narrow inequalities and consider the needs of the most vulnerable
- Working alongside local people to design the right solutions – doing with people, not to them
- Sharing data openly for the purposes of implementing the system strategy
- Integrating care and break down traditional barriers between organisations, so that local people receive joined-up care

We acknowledge that this may result in the following:

- The need to develop a different relationship between health and care services and local people
- Changes in how services are commissioned and provided, for example:
 - A greater emphasis on preventative and community based care, resulting in fewer people needing hospital care
 - Community services and primary care being delivered in new ways with full availability seven days a week
 - services for adults and children integrated across current providers
 - Relocation of some services
 - better linked and more accessible urgent care provision to reduce the need on local residents using A&E services
- Changes in how we fund and pay for care, to ensure that we align incentives with benefits for the whole system
- Making changes in the range of services organisations offer as we seek to drive up quality and improve efficiency

Parties to this concordat

Health care Providers:

- CUHFT
- CPFT
- Hinchingsbrooke hospital/Circle Group
- Papworth Hospital
- CCS NHST
- PSHFT
- UCC
- HUC

Commissioning organisations:

- CCG
- NHS England

Local Authorities:

- Cambridgeshire County Council
- Peterborough City Council

Health care regulators:

- Monitor
- Trust Development Authority
