

Review of Polling Districts and Places by Peterborough City Council December 2007

CONTENTS

- Part 1 Background to the Review
- Part 2 Process for the Review
- Part 3 Initial and Further Consultation
- Part 4 Council Decision: Designation of Polling Districts and Places
- Part 5 Returning Officer's Decision: Designation of Polling Stations

1. INTRODUCTION

- 1.1 The Electoral Administration Act 2006 introduced a duty for every local authority to review all polling districts and polling places by the end of 2007.
- 1.2 Local authorities are required to divide their area into polling districts for the purpose of Parliamentary Elections, to designate polling places for these polling districts, and to keep them under review. By conducting this statutory review of polling places, local authorities must demonstrate that they have, as far as is practicable, met the following criteria set out in legislation:
- (a) Sought to ensure that all the electors in the constituency have such reasonable facilities for voting as are practicable in the circumstances
 - (b) Sought to ensure that so far as is reasonable and practicable, the polling places they are responsible for are accessible to all electors, including those who are disabled, and when considering the designation of a polling place, must have regard to the accessibility needs of disabled purposes.
- 1.3 Ideally Council would have a choice of a range of fully accessible buildings, conveniently located for electors in the area. However, in practice, there may be little choice available. If it is necessary to use a place where the access is not ideal then every reasonable adjustment must be undertaken to provide access for all electors.

2. PREVIOUS POLLING REVIEWS

- 2.1 A comprehensive review of the polling districts of the Peterborough City Council Area was last undertaken in 2003 and changes were brought into effect for the Register of Electors published on 1 December 2003. This has provided a sound basis for the current review process reducing the backlog of issues that have required examination.

3. FIRST AND SUBSEQUENT REVIEWS

- 3.1 Under the new legislation, every local authority must have undertaken and completed a review of all polling districts and polling places in its area by 31 December 2007.
- 3.2 The Council must then complete a further review before the end of the period of 4 years starting with the completion of the first review.
- 3.3 It should be noted that the review is exclusively of polling districts and polling places within electoral wards and that the final decision on these matters rests with the Council.

PART 2

PROCESS FOR THE REVIEW

1. COMMENCEMENT OF REVIEW

- 1.1 Notice of the review was published on 17 September 2007 and representations invited by 19 October 2007. Notice was given on the Council's website and letters sent out to Consultees. The list of Consultees was submitted to the Polling Review Working Group for approval, to ensure that a wide-ranging consultation process was adopted.

2. CONSULTEES

- 2.1 The full list of Consultees was as follows:

City and Parish Councils	Parliamentary Representatives	Political Parties	Users - Specific Interest Group
All Members of Peterborough City Council	Stewart Jackson MP	North East Cambridgeshire Conservative Association	The Disability Issue Group at 40 Park Road, Peterborough
All Clerks of Parish Councils within the area of the City Council	Malcolm Moss MP	Peterborough Labour Party	
	Shailesh Vara MP	North West Cambridgeshire Liberal Democrat	
		Liberal Party	
		North West Cambridgeshire Labour Party	
		North West Cambridgeshire Conservative Association	
		Peterborough Conservative Association	

PART 3

INITIAL AND FURTHER CONSULTATION

1. REPRESENTATIONS FROM INITIAL CONSULTATION

1.1 The period of consultation drew the following representations:-

Consultee	Ward	Comments
Southorpe Parish Council	Barnack	Present arrangement at Barnack Village Hall is appropriate
Councillor A J Miners	Dogsthorpe	Local Councillors wish to retain current polling stations for the ward. Only request for improvements relates to DOG5 (Newark Hill School) where it would be preferable to have a mobile polling station located in either Sherborne Road or Burford Way. If not possible then current arrangements should remain
Councillor Cereste	Stanground Central	STC3 - Use Mace Road Church Hall instead of Oakdale Primary School

2. ROLE OF POLLING REVIEW WORKING GROUP

2.1 A Polling Review Working Group was established comprising Group Leaders which met on 6 November 2007. The purpose of the meeting was to consider progress with the review regarding the access audit and consultation that had been undertaken.

2.2 It was reported to the Working Group that all Polling Stations had been inspected and some changes needed to be made because some premises did not meet the requirements of the Disability Discrimination Act. The other premises, although needing minor adaptation in some cases, were all accessible to all electors, including those who were disabled. It was noted that the managers of premises had been receptive to the advice given by the Access Officer. No works were required to be undertaken to satisfy polling requirements alone and where major works were necessary, the Returning Officer had sought to relocate the premises.

2.3 It was felt that no changes were necessary to polling districts but that further consultation should be undertaken in respect of some polling stations. The Working Group agreed that this should be undertaken through a process of consultation with Ward Councillors.

3. REPRESENTATIONS FROM CONSULTATION WITH WARD COUNCILLORS

3.1 A provisional list of proposals were submitted to Ward Councillors (and Group Leaders) in respect of Polling Stations where the current accommodation was unavailable or unusable without major adaptations. In all cases where minor adaptations were possible, every effort was made to retain the existing polling arrangements.

The provisional list of proposals is set out below:

Polling District: AIL
Current Polling Station: Methodist Chapel Schoolroom, Ailsworth
Issues Arising from Access Audit: Unsatisfactory access from curtilage to the Schoolroom, proposed to relocate to main

Chapel building; agreed by the Chapel management.

3.2 All issues raised by Ward Councillors were examined with inspections undertaken of alternative premises when suggestions were received.

4. FURTHER FINAL PROPOSALS

4.1 Further proposals were developed following the consultation process with Ward Councillors.

4.2 Ultimately, final proposals have been developed which reflect that there has been:-

- A detailed Access Audit undertaken of all Polling Stations within the area
- A consultative approach to inform the findings of the review

- A presumption to seek reasonable adaptations to premises where appropriate in order to preserve the use of current polling locations.

1. SCHEDULE OF RECOMMENDATIONS

- 1.1 The Council is responsible for identifying the Polling Districts and Places that are to be used within the area of the local authority. It is common practice to designate the Polling Districts and Places as being one and the same as this provides maximum flexibility for the Returning Officer in responding to changing circumstances regarding the availability of premises used as Polling Stations.
- 1.2 Arising from the current Polling Review, there have been no proposals made to change the Polling Districts within the area. However, there are certain proposals which would mean that all Polling Places are not located within the Polling Districts they serve. This is allowed under Electoral Law and reflects the scarcity of Public Buildings that are accessible and fit for purpose in specific locations.
- 1..3 The recommendations for Polling Districts and Places that are made following the process of consultation that has been undertaken are set out below:

- 1.2 Consultation on the designation of Polling Stations will continue, with representations welcome, up until 31 December 2007.
- 1.3 In the longer term, the Returning Officer must be able to respond to changing circumstances in fulfilling his/her statutory duty should a set of premises be unavailable on Polling Day, or indeed better facilities are identified as a result of the refurbishment or erection of buildings in a particular Polling District. In these circumstances, it would be useful to provide a clear process of engagement prior to a decision being taken. This will ensure that all views are considered and the most convenient and accessible Polling Stations are used to serve the electors of Peterborough.
- 1.4 It is proposed that the following procedure be adopted:

Consultation Process on the Re-designation of Polling Stations

- Stage 1: Identification of need for change of Polling Station by Returning Officer
- Stage 2: Consultation allowing 5 days for comment with the following:
- (a) Group Leaders
 - (b) Ward Councillors
- Stage 3: Notification of the decision of the Returning Officer to:
- (a) Group Leaders
 - (b) Ward Councillors
 - (c) Main Political Parties
- Stage 4: Implementation of the decision to include appropriate measures to notify the local electorate.

Note: This process shall be adopted in its entirety, where there is a period of two calendar months between the proposed date of change and polling day, or so far as it is practicable, when there is a lesser period before polling day.
