

Environment Action Plan: Peterborough City Council

We are committed to environmental leadership, decision-making and continuous improvement. We will achieve this by:

Theme / 2050 Vision	Context, achievements and supporting policies	Our targets to 2020
Zero Carbon Energy No net carbon emissions from energy consumption, achieved through high energy efficiency and renewable energy.	 In 2015/16 the council generated 645,126 KWh of renewable energy. In addition, the Energy Recovery Facility has generated 53,000MWh of renewable energy per annum. All council employees are required to take a mandatory sustainability e-learning module. 369 homes have benefitted from external wall insulation across the city. Examples of supporting policies: Carbon Management Action Plan, adopted 2010 	 Establish a CO2 baseline relevant to Fletton Quays and set a target for reduction relative to the city's growth aspirations. Maintain our 'Green' rating with Investors in the Environment. Fletton Quays office to meet BREEAM 'very good' standard. Take advantage of funding streams and the Honeywell Framework to increase energy efficiency/ renewable energy. Upgrade 17,000 street lights to energy efficient LEDs.
Sustainable Water We will have high quality water environments, the annual risk of flooding will be less than 1 in 100 in the urban area and we will each use 80 litres of water or less daily.	 In a single year the council's estate uses approximately 256,946m3 of water. The council were highly commended in the leadership category of Anglian Water's 'We Love What You Do' Business Awards in 2014. Peterborough's SuDS team were highly commended in the Institution of Civil Engineers awards for delivering a regeneration scheme tailor-made for the community it serves. Examples of supporting policies: Local Flood Risk Management Strategy, adopted 2016 The Peterborough City Council Emergency Management Plan, adopted 2015 	 Establish a baseline for the council's water consumption relevant to Fletton Quays and set a target for reduction. Seek to include SuDS in all appropriate public realm and highways design schemes across the city. Skanska will establish a baseline for water consumption and set a target to reduce potable water. Design the new offices at Fletton Quays to minimise water consumption e.g. low flow taps.
Land Use and Wildlife A network of naturally diverse, wildlife-rich, accessible places which are valued and enjoyed locally.	 The council manages a rich asset of approximately 105,000 trees predominantly on highways, parks and open spaces, and an estimated further 1.4m trees making up the councils 280 hectares of woods, providing benefits to public health and the environment. Amey, on behalf of the council, maintain over 5.6million m² of grass (the same size as 800 football pitches). Examples of supporting policies: Peterborough's Biodiversity Strategy, adopted 2010 	 Increase the number of sites in positive management to 82% and maintain going forwards. Develop a biodiversity area at the Fletton Quays site. Skanska are seeking to increase overall biodiversity levels across all of their highway schemes. Subject to funding designate two new local nature reserves. Support Nene Park Trust to develop their city centre offer.
Sustainable Materials All building materials purchased in the city will be from sustainable sources and wherever possible sourced locally.	 Peterborough launched its intention in 2015 to create a circular city and is one of nine cities to be part of the Ellen MacArthur Circular Cities Network. The council, in partnership with Opportunity Peterborough have developed 'Share Peterborough' a platform that allows businesses to share products, services and resources. Examples of supporting policies: Circular Peterborough Commitment, launched 2016 Peterborough City Council's Procurement Strategy, adopted 2015 	 Support the city to develop circular economy approaches and ascertain the feasibility of becoming the UK's first circular city. 80% of Skanska's procurement will be from the Greater Cambridgeshire Greater Peterborough LEP area. Develop a sustainable procurement policy and seek to increase opportunities for local SME's in our supply chain. Seek to minimise the environmental impact of new ICT.
Local and Sustainable Food 80% of food consumed will be produced and processed within 100 miles of the city.	 There are 1,450 allotments covering an area of 367,630m3. The council supports Peterborough's aspiration to become a Fairtrade city. Via the council's internal catering contract with Amey, 75% of fresh produce and 40% of meat is from East Anglia - the majority of which is through school meals. Examples of supporting policies: Peterborough Local Plan, preliminary draft due for adoption 2018 	 Seek funding to introduce a scheme to identify and promote restaurants & food outlets offering local and sustainable food. 100% of the food purchased by Skanska will be Fairtrade and/or locally sourced. Skanska will introduce food growing areas for staff. Promote local and sustainable food to employees through the annual 'Boost your Wellbeing' campaign.

Peterborough currently produces around 90,000 tonnes of waste per year, around 45% of Skanska will divert 95% of waste from landfill and will work **Zero Waste** which is currently recycled. Our goal is to achieve in excess of 65% recycling by 2020. with their supply chain to minimise waste. Annual household waste will Recycling rates have risen by over 10% in some areas of the city following the introduction Baseline the council's waste relevant to Fletton Quays and decrease to 250kg per person of a recycling rewards scheme, 'Love Peterborough: love your Community'. develop a target for reduction. and 100% will be recycled, **Examples of supporting policies:** • Run an annual zero waste week for staff. reused, composted or Minerals and Waste Core Strategy, adopted 2011 • Continue to offer used battery collection at key council offices. recovered. Joint Municipal Waste Management Strategy for Cambridgeshire and Peterborough, adopted 2008 32% of council employees travel to work sustainably and of this 9% walk. This compares to Continue to seek funding to support citywide sustainable **Sustainable Transport** Peterborough as a whole where 28% travel to work sustainably and 7% walk to work. transport initiatives.
