#### Monitoring improvement

The Health and Wellbeing Board plans to monitor the actions proposed in the Strategy every six months, and to review changes in health outcomes for residents every year.

Joint Health and Wellbeing Strategy 2020-24 | QUESTIONNAIRE

### What do you think about our priorities?

The Health and Wellbeing Board brings together the organisations responsible for making decisions about health, wellbeing and care services in Cambridgeshire and Peterborough.

This includes local NHS organisations, elected Councillors, local authority public health, adult social care and children's services, and local Healthwatch. The Board works together to plan how best to meet the needs of the local population and tackle inequalities in health. We have developed a draft Health and Wellbeing Strategy to help us do this. We have chosen four priorities for the Strategy, in order to help the people in our communities live healthy lives. These are the things that it is most important for us to do.

## PRIORITY ONE: places the stop out health and wellbeing

The places where we live, work, learn and socialise have a big impact on our health. For this priority, we want to focus on:

- Build new homes and provide transport links that help people stay healthy and active, and support actions to reduce
- Work together to prevent homelessness, and provide support to vulnerable homeless people to move into stable housing.
- Help people with fewer qualifications access education and skills training to improve their employment chances. Help more people with long-term conditions into work.

say

- 1. Do you feel these are the right things to support the people in your community to be healthier?
- Strongly Agree ☐ Neither agree nor disagree Disagree Strongly disagree
- 1b If you answered 'strongly disagree' or 'disagree', why do you feel these aren't the right things to support the people in your community to be healthier?

Are there any other things which should be done to make the place where you live healthier?

Joint Health and Wellbeing Strategy 2020-24 QUESTIONNAIRE

# PRIORITY TWO: Helping children achieve the best start in life

Having a healthy and safe environment in early childhood and being ready to start school helps people have better health throughout their lives. For this priority we want to focus on:

- Support the families of children from pre-birth to five-years' old to give them the best start in life.
- Work together to improve mental health services and support for older children and adolescents.

Do you feel these are the r	ight things to hel	₫.	n life?	Strongly Agree
Strongly disagree	isagr	Neither agree nor disagree	Agree	Strongly Agree

3b If you answered 'strongly disagree' or 'disagree', why do you feel these aren't the right things to help children achieve a healthy start in life?

Is there anything else that could help children achieve the best start in life?

## PRIORITY THREM SAD by ROWTY throughout life

This means people having the opportunity to live a healthy lifestyle as well as having access to health services. For this priority we want to focus on:

- Work together to help people achieve a healthy weight.
- Support people to manage long-term conditions like diabetes and heart disease.
- Reduce smoking.
- Improve mental health and access to services
- Ensure services work together to meet the needs of people as they grow older.
- 5. Do you feel these are the right things to help people stay healthy throughout life?

☐ Strongly disagree ☐ Disagree ☐ Neither agree nor disagree ☐ Agree ☐ Strongly Agree

5b. If you answered 'strongly disagree' or 'disagree', why do you feel these aren't the right things to help people stay healthy?

Is there anything else that would help people stay healthy throughout life?

Joint Health and Wellbeing Strategy 2020-24 QUESTIONNAIRE

## PRIORITY FOUR: good quality health and social care

Good quality health and social care when you need it matters to everyone. For this priority we want to focus on:

- Develop a local community approach to make sure that services and communities work together to help people when they
  need it. This is called 'Think Communities'.
- Work together to meet the needs for health and care services of a growing local population.
- Address financial challenges together
- Act as a system to reduce inequalities in health between communities.

	Do you feel these are the right things to help improve the health and social care services?
^ 2500	ial care services?

Strongly disagree □ Disagree □ Neither agree nor disagree □ Agree □ Strongly Agree

7b. If you answered 'strongly disagree' or 'disagree', why do you feel this plan won't help improve the quality of health and social care?

8. Is there anything else that would help improve health and social care services?
