1. ORIGIN OF REPORT

This report is submitted to the Audit Committee in line with its agreed Work Programme for 2009 / 2010.

2. PURPOSE AND REASON FOR REPORT

- 2.1 The report is to inform members of the Assurance Framework (AF) which is an initiative designed to further consolidate the Council's Risk Management framework. The AF is laid out in sections according to the objectives / priorities specified in the Sustainable Community Strategy. It is also intrinsically linked with the Annual Governance Statement (AGS).

3. TIMESCALE

Is this a Major Policy Item / Statutory Plan?	NO	If Yes, date for relevant Cabinet Meeting	N/A
---	----	---	-----

4. BACKGROUND

- 4.1 The Council's AF provides a simple but comprehensive method to implement effective and focused management on obtaining assurance relating to the achievement of key council priorities, its Partners, and Stakeholders, and the inherent risks to achieving this.

- 4.2 The Framework provides a structure and reporting process which will assist the Audit Committee carry out its duties of:

- a) Considering the effectiveness of the Council risk management arrangements, the control environment and associated anti-fraud and anti-corruption arrangements;
- b) Seeking assurances that action is being taken on risk related issues identified by Auditors and Inspectors;
- c) Seeking assurance that action has been taken to implement the recommendations arising from the findings of significant audit work; and

- d) Ensuring that the Council's assurance statements, including the Annual Governance Statement, properly reflect the risk environment and any actions required to improve it. This helps facilitate effective performance management by simplified reporting and enables prioritisation of actions to maximise opportunities and ensure effective management of risks.

4.3 The Framework was submitted and approved at Audit Committee on 30 March 2009 and an update provided in the November committee cycle.

5. CURRENT POSITION

5.1 The key priorities and key risks where assurance is required has been identified from the Strategic Risk Register, the Annual Governance Statement, together with the Assurance Framework. The sources of assurance have been obtained from internal and external sources. Internal sources included Directors and Heads of Service self assessments, committee and scrutiny panel reports together with Internal Audit work. External sources of assurance have been obtained from External Audit activity and Inspection reports.

5.2 The Framework references the documented evidence that identifies the key risks areas, the current position of these and the actions being implemented, and the mechanisms for reporting on progress. 62 areas of assurance have been sought from across the Council, which covers all service areas and activities (full details reported 2 November 2009). Subject to the availability of information, an assessment has been made against these activity areas, these being **FULL** Assurance, **MODERATE** Assurance or **MORE WORK REQUIRED**. Current levels show that of the 62 areas, the profile is:

Assurance Level	October 2009	March 2010
Full	12	13
Moderate	48	48
Further Work Required	2	1
	62	62

5.3 Summary information on each activity is recorded on **Appendix A**. There have been a number of changes / improvements to the control / assurance environment, particularly around governance arrangements and the credit crunch.

5.4 The Framework is not a static document, and will be updated throughout the year as the needs and assurances across Peterborough change. A further update will be submitted to Audit Committee in November 2010, in accordance with the Work Programme.

6. CONSULTATION

The Framework has been compiled after discussions with Risk Management, together with analysis of committee reports, internal and external audit reviews and other council publications. It has been circulated to senior management for comment and observation.

7. ANTICIPATED OUTCOMES
