

INCIDENTS TO WHICH WE DO NOT ACCEPT FAULT

APPENDIX F

- 1. CC-04022010-0008 Our DJ was offered drugs by a male customer. The duty manager was informed of this and the police were called. A search was made but no drugs were found. We welcome any input as to how this incident could have been dealt with better. It was also accepted by the Police at the mediation that Shooters does not have a drug problem.**
- 2. CC-03022010-0029 We have no report for any incident happening on this night. We believe that this incident must of occurred as a result of people leaving New York New York as this ties in with their closing time. Please provide more information.**
- 3. CC31012010-0111 We have no report for any incident happening on this night. We believe that this incident must of occurred as a result of people leaving Liquid as this ties in with their closing time. Please provide more information.**
- 4. CC-29012010-0043 Firstly and most importantly we would dispute that this male was very drunk. He was ejected from the venue for aggressive behaviour to a group of females. Excessive force was not used as it states in the police report. We strongly believe that we dealt with this in the correct manner.**
- 5. CC-26012009-0077 We have no record of this incident. If this report was made to the police, I am not sure why it was not followed up with our doorman. Until we get further information I can only assume that we have done nothing wrong.**
- 6. CC-25012010-0013 There was a report written up about this incident. A male and a female approached our door but were refused as they were both drunk and the male had previously been barred from our venue. The male became aggressive which culminated in him attacking our doorman. He was restrained and the police were called and he was arrested. I was led to understand that when anyone is arrested who is drunk, they are questioned as to where was the last place they drank at. This being the case, the police should have a record of this males final movements and therefore should be able to vindicate us of any wrongdoing. In the police statement it says that these people were drinking at our bar, which is not correct. This relates to crime number CF0037060110.**
- 7. CC-21122009-0023 There was a report written up about this incident. A female customer of Liquid slipped over on the ice outside of our venue. 3 male customers of ours who were outside having a cigarette laughed about it and a male Liquid customer known as Sean Watkins approached one of the males and punched him in the mouth knocking a tooth out. The police were called and statements and CCTV footage was given to them at the time. This incident should be linked to Liquid and not Shooters. Relates to crime number CF0654021209.**
- 8. CC-07122009-0636 There was a report written up about this incident. A male seemed to be having a diabetic seizure so an ambulance was called. On arrival the male refused any treatment and left our venue. We strongly feel that our management of this incident was fully in line with our licensing objective with regard to public safety.**
- 9. CC-07122009-0012 There was report written up about this incident. A female known to us as Cherrie, who is a chef at O'Neil's appeared to be having an epileptic fit in the ladies toilets. An ambulance was called. She had been in our venue less than an**

INCIDENTS TO WHICH WE DO NOT ACCEPT FAULT

hour and was definitely not drunk. We strongly feel that our management of this incident was fully in line with our licensing objective with regard to public safety.

10. **CC-02122009-0054** A male had given his jacket to a female earlier in the night. At the end of the night the male asked the door staff where his jacket was and was told that he had given it to a female and that she had gone home. The male would not accept this from us or the police and was arrested for a Section 5. The following day the male returned to our venue still asking about his coat and was once again told what had happened. At this point the manager noted that the male did not seem to be mentally stable. In the police notes, it is stated that there is a fight. This is not correct. This relates to crime number CF0620901209.
11. **CC-27112009-0035** There was a report written up about this incident. A previously barred male known to us as Ian Griggs forced his way into our venue and refused to leave. This male is known for intimidation and violence and so we called the police so that they could assist us in removing him. This incident was dealt with in the only way that we could comply with the licensing objective of public safety.
12. **CC-19112009-0051** Obviously we have no report for this incident. There has never been any question that we run a very tight ship with regards to drugs. This was accepted by PC Maddox at the mediation.
13. **CC-29102009-0017** A male in a wheelchair was refused entry for being drunk. He became aggressive and stood up and punched our doorman. The control room were informed and the police attended and arrested the male. Once again, this incident stemmed from a person getting drunk at another venue, which the police should have a record of.
14. **CC-23102009-0019** A male came into our venue and went straight to the toilet where he proceeded to purposely damage our property. When this was discovered the male was approached and the police called. The male agreed to pay damages and was sent on his way by the police. At no point did the male have a drink in our venue and wasn't drunk. There is nothing to suggest we did not manage this incident properly.
15. **CC-10102009-0094** 2 males were walking down from Liquid when they started arguing. This resulted in one of the males being punched. The control room saw this on CCTV and radioed us to find out if the male wanted to make a complaint. He ultimately didn't and both males walked off. Our only involvement in this incident was to assist the control room and therefore uphold our licensing objective with regard to the prevention of crime and disorder, public safety and the prevention of public nuisance. We have not done anything wrong and this incident does not relate to our premises.
16. **CC-05092009-0115** We have no report for this incident. This probably has no connection with Shooters and has stemmed from another venue. Please provide further information.
17. **CC-10082009-0050** We have no report for this incident. At no time have we ever been informed of any of our staff selling drugs. Our venue has never been associated with having any sort of drugs problem, which was upheld by PC Maddox at the mediation meeting.

INCIDENTS TO WHICH WE DO NOT ACCEPT FAULT

18. **CC-01082009-0156** A male attempted to leave the venue whilst concealing a number of bottles down his trousers. He was approached by door staff and the bottles were taken from him. He became verbally abusive and was pushed away. He then claimed to police that he had been assaulted by a doorman and when the police spoke to the doorman they were informed that this was untrue. The police were offered CCTV evidence but they declined.
19. **CC-01062009-0030** We have no record of this incident. Please provide further information.
20. **CC-29052009-0321** This incident seems to have been reported 3 days after it was supposed to have occurred, and we have no record of any incident ever happening. Please provide further information.
21. **CC-11052009-0261** We have no report for this incident. Please provide further information.
22. **CC-02052009-0125** We have no record of this incident. None of our door staff were assaulted on this day and none of them received any compensation. This must relate to a different venue.
23. **CC-01052009-0045** We have no record of this incident. On several occasions we have contacted the control room to report disorder at other venues. This must be the case as we have no incident report to suggest that it occurred at Shooters. This would also suggest that we are upholding our licensing objectives.
24. **CC-22032009-0595** We have no report for this incident. I strongly believe that the report made to police is completely fictitious. I have absolute confidence that none of our staff are capable of such actions and there is no evidence otherwise. Maybe this is a disgruntled member of the public.

INCIDENTS WE DO NOT ACCEPT AND REQUIRE MORE DETAILS

25. **CC-22012010-0047** We have no record of this incident, as we believe this would have spilled out from another venue and like so many other Incidents gets attributed to Shooters due to its geographical location. Further evidence or details need to be made available.
26. **CC-27122009-0080** We have no record of this incident, as we believe this would have spilled out from another venue and like so many other Incidents gets attributed to Shooters due to its geographical location. Further evidence or details need to be made available.
27. **CC-20122009-0057** We have no record of this incident, as we believe this would have spilled out from another venue and like so many other Incidents gets attributed to Shooters due to its geographical location. Possibly relates to CC-21122009-0023 but the assailant was not a customer of Shooters, Further evidence or details need to be made available.
28. **CC-28112009-0121** If door staff were suspected of taking a wallet, why were they not questioned at the time? Obviously the police didn't believe this if they did why have they not fulfilled their job and we are being informed of this some 3 months later? Further evidence or details need to be made available.

INCIDENTS TO WHICH WE DO NOT ACCEPT FAULT

- 29. CC-25102009-0044** We have no record of this incident, as we believe this would have spilled out from another venue and like so many other Incidents gets attributed to Shooters due to its geographical location. Further evidence or details need to be made available as we had refused male entrance by police records, not sure what we have done wrong?
- 30. CC-04092009-0051** Our records show no assault has taken place and this incident relates to a confiscated ID. A male passed another male his driving licence and when we refused to let them in and confiscated the ID the male called the police.
