	<p>questions that included:</p> <ul style="list-style-type: none"> • changing health needs need changes to provision; • some facilities and practices not adequate to provide necessary services; • changes in urgent care services needed; • GPs do support hydrotherapy but must be a cost benefit before using; • Cllr Fox - 3500 have disabilities in city, need full support from PCT and others to keep pool open. New hospital has no pool. Dr Caskey – have referred people previously for hydrotherapy and think it is a needed resource; • Cllr Fower – if there is a requirement should be one in the city, astounding that there isn't one in the hospital; • Cllr Burton – need hospital trust to respond re the pool. Also, urgent care changes essential, not just the practices; • Cllr Lane – online consultation shows no surgery in Werrington Centre. Dr Caskey – Werrington is split into a branch and main surgery, branch surgery not on the consultation map; • Paston surgery is unaffected by proposed changes; • Cllr Fower – reducing walk-in centres? Caskey – that is part of the proposal as too much duplication and not enough clarity on which service to use; • Dr Caskey – over many years, no proper coordinated forward planning of services and facilities regarding location and need. Had to establish certain facilities requested by government; • Cllr Sandford – lots of planning mismanagement and financial problems. Need to consider if consultation is open and fair.

	<ul style="list-style-type: none"> • Community Grant Scheme – very good progress; • Maybe £2-3k remaining unspent but need to confirm with the Neighbourhood Manager; • Cllr JR Fox – further spending could include Traveller Transit site issues; • Cllr Burton – propose for all Cllrs to consult with residents to identify vulnerable areas to Travellers and suggestions to deter against them and could develop solutions to agree at the next meeting; • Cllr Fower – need to make residents aware that money is available in order to get as many ideas as possible; • Cllr Day – has had Traveller issues before. Cllr JR Fox – has taken far too long to resolve, agree. Request that residents in Paston do not put rubbish out too early and that the council can collect large items. These actions should help reduce number of fire incidents. <p>Comments and questions included:</p> <ul style="list-style-type: none"> • Mark Bennett-Tighe – Fire Service has no regulatory authority to impose fines on offenders. Ken Hudson – the regulations for the council or Police would apply to chimney smoke and bonfires etc; • Fly tipping increased since charging? Leonie McCarthy – no. Can get exact figures. • Diane from Paston – seems like lots of false calls in some areas as often see a fire engine. Mark Bennett-Tighe – sometimes patrol on ‘red routes’, if blue lights on then had a call; • Lawrence Wright – are many vehicles impeding access? Mark Bennett-Tighe – some wards yes, not necessarily in this area. School times are sometimes problematic. 	<p>LM</p>

David Marshall – do have enforcement officers and when reported will investigate; • Cllr Sanford – since 1996 have had this issue. Grass verges to enhance the area, not for parking spaces. Glad that action being taken. Why can't officers replicate Dogsthorpe work across the city, told by previous highways boss it would only cost £100k? David Marshall – have tarmaced lots of verge so no more grass to ruin. Local parking orders were imposed too for remaining verges; • Leonie McCarthy – can provide info on who is responsible for verge parking. <p>ACTION:</p> <p>Provide information on what agency is responsible for cars parked on verges – Leonie McCarthy.</p>	LM
