The Corporate Director Resources and Financial Services Manager - Corporate Accounting introduced the report to Audit Committee on the final position for both the revenue budget and capital programme, which required the Audit Committee to approve the reserves position as part of the Council's statement of accounts.

The key points highlighted included:

- Corporate Overview;
- Financial Report – Revenue Outturn;
- Financial Report Capital;
- Financial Report – Treasury Management Activity for 2014/15;
- Financial Report – Performance Monitoring;
- Revenue Monitoring Report at End of March 2015;
- Treasury Management Strategy – Prudential Indicators – 2014/15;
- Performance Monitoring; and
- The Governments new budget announcement was due on 8 July 2015, which had been anticipated to propose spending cuts for Public Health.

The Corporate Director Resources responded to comments and questions raised. In summary responses included:

The budget pressure of £25m for 2015/16 had mainly been imposed by the Government through grant reductions, but also in relation to challenging circumstances such as an

increase in the aging population, implementation of new legislation, safeguarding for children and investment in growth for the City.

The Committee:

Approved:

1. The reserves position for the Council.
The Audit Committee also noted:
2. The final outturn position for 2014/15 (subject to finalisation of the statutory statement of accounts) of a balanced position on the Council's revenue budget, after the use of £0.6m from reserves to support the budget, which is less than forecast as actions had reduced pressures;
3. The final outturn spending of £108.8m under the Council's capital programme 2014/15;
4. The performance against the prudential indicators;
5. The performance on treasury management activities, payment of creditors, collection performance for debtors, local taxation and benefit overpayments; and
6. The forecast budget gap of over £10m for 2016/17 was expected to increase with the update of national expenditure plans, and that Cabinet may need to review 2015/16 plans in light of the budget to be released on 8th July.

5. DRAFT STATEMENT OF ACCOUNTS 2014/2015

The Corporate Director Resources and Financial Services Manager introduced a report to Audit Committee Members, which had been informed by the regular pattern of reporting on the Council's financial position. The Corporate Director Resources also advised Audit Committee Members that the accounts must be signed and certified by 30 June 2015, by the Council's Section 151 Officer (Corporate Director Resources), in accordance with the Accounts and Audit Regulations 2011.

The key points within the report included:

- Format of the Accounts;
- Comprehensive Income and Expenditure Statement;
- Balance Sheet at 31 March 2015;
- Reserves and Balances;
- Schools;
- Audit Fee; and
- Next Steps - approval, signing, inspection and audit.

The Corporate Director Resources and Financial Services Manager responded to comments and questions raised by Members. In summary responses included:

- The increased deficit figures for pensions fund actuary assumptions had been due to the mortality rate of scheme members and investment market performance;
- The pensions fund deficit shown in the statement of accounts reflected the amount that the Council would be required to meet if pay out was required immediately;
- The pensions fund actuary had completed a valuation every three years and had recommend that the Council make a lump sum investment each year over the next three years alongside a reduced contribution rate;
- Foundation school (FS) assets had been included on the Council's balance sheet as a result of a clarification paper produced by The Chartered Institute of Public Finance & Accounting (CIPFA). This amendment to the accounts better reflected the legal position if foundation schools ceased to operate in their current form and the

responsibility for the school asset should come back into direct Local Authority control;

- The Council held a duty to monitor foundation school finances, however, cannot access school balances and reserves. The responsibility for FS funds remained with head teachers, despite the amendment in accounting treatment and presentation;
- The statement of accounts did not contain any figures on schools performance, only on the types of school within the Local Authority area;
- The £78.8m loan amount had been taken out to support the Council's capital programme, which would support initiatives such as the energy for waste project. An affordability review was produced annually as part of the Medium Term Financial Strategy (MTFS) which assessed the implications of the Council's borrowing commitments and proposals;
- The sale of Council's assets could not be relied upon to offset the Authority's borrowing amount, as there were certain buildings and assets that could not be utilised in respect of lowering the financial commitment, such as the sale of the Town Hall; and
- The Council was obliged to publish a disposal asset plan as part of the budget as contained within the Medium Term Financial Statement (MTFS).

The Committee:

Reviewed and commented on the Statement of Accounts prior to the Chief Finance Officer's certification by the 30 June 2015.

The Committee also agreed that:

That the Service Director of Financial Services would provide a briefing note to Members of the Audit Committee to outline the implications of the Bourges Boulevard developments completion delay to include:

- A lot of cases of benefit fraud were intercepted before it happened;
- Council tax overpayments; and
- Some of the fraud work had transferred over to the single fraud investigations within Department of Work & Pensions (DWP).

- Out of the 17 disciplinary cases investigated by the Council, five cases were upheld and valid;
- In the main, blue badge fraud investigations were conducted by Council officers undertaking inspection of car parks;
- The investigation costs and time taken were recoverable over a length of time, such as for cases of housing benefits fraud. These costs had been recoverable by attaching them to the prosecution costs incurred or surcharges attached to sanctions imposed by means of benefit reductions applied to the claimant, which was spread over a period of time;
- The DWP fraud cases could ultimately result in a custodial sentence, which may include sanctions such as community service, plus the recovery of costs; and
- A deceased persons list issued by the DWP would be utilised to cross reference against entries on the benefit claims checking system. However, in some cases a time lapse could be experienced in receipt of the information from the DWP, to when the information was relied upon.
