11. CUMULATIVE IMPACT

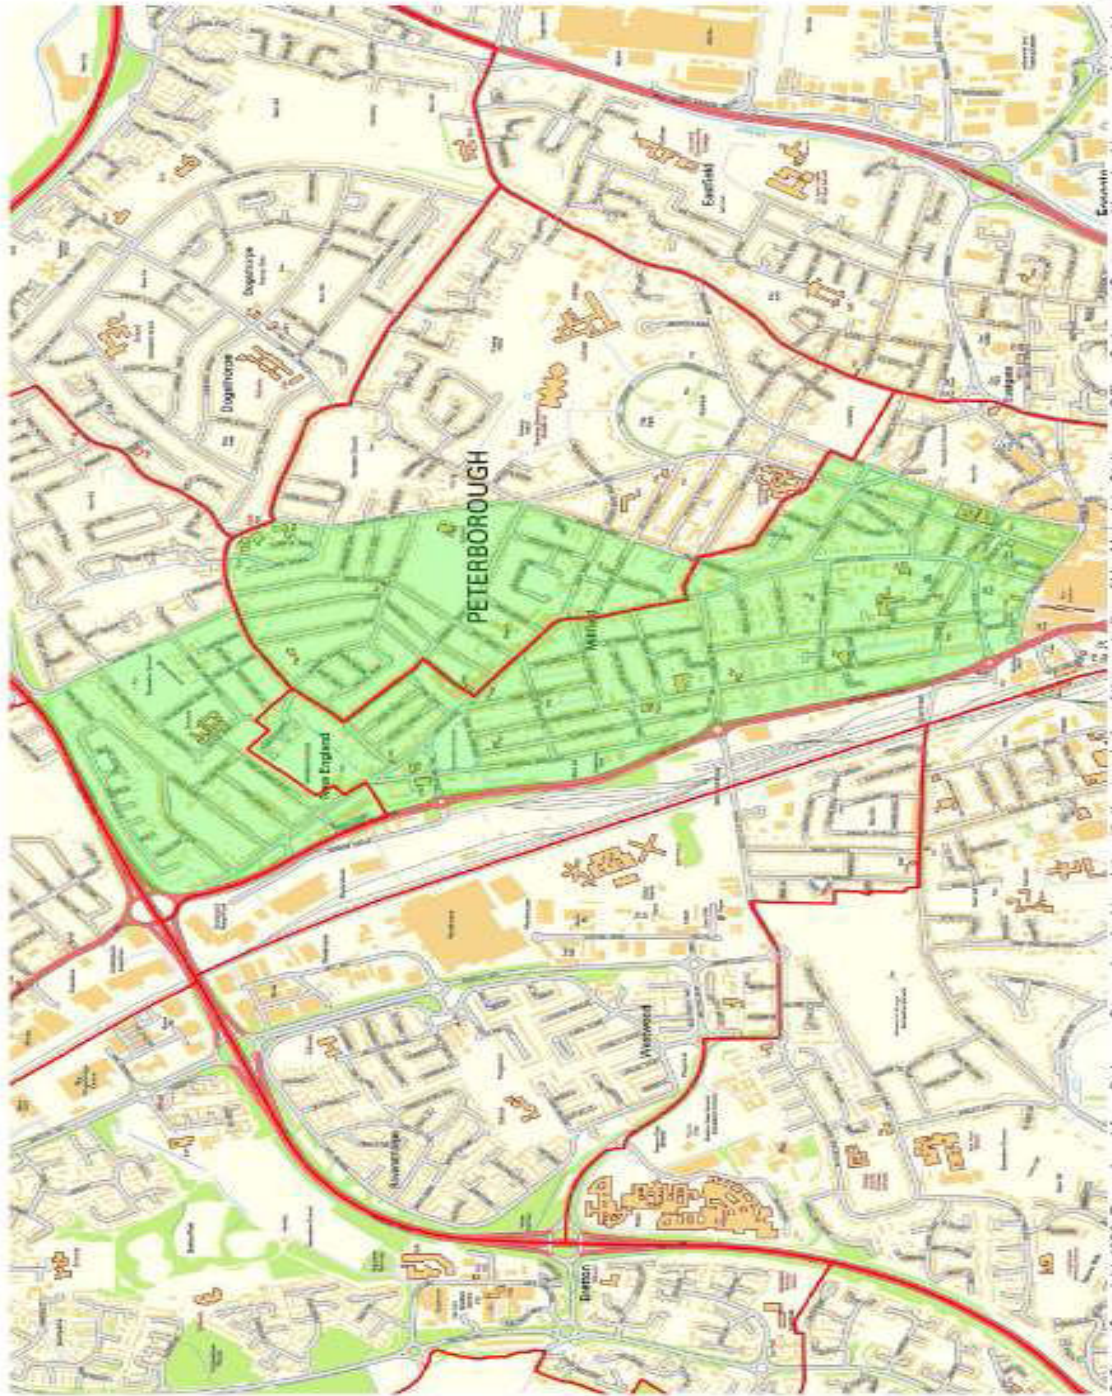

- 11.1 The cumulative impact of licensed premises on the promotion of the licensing objectives is a matter which the Council can consider within its licensing policy statement. This should not, however, be confused with 'need' which concerns the commercial demand for a particular type of premises, e.g. a pub, restaurant or hotel. The issue of 'need' is therefore primarily a matter for the market to decide and does not form part of this licensing policy statement.
- 11.2 The licensing authority can only adopt a special policy on cumulative impact if there is evidence that a significant number of licensed premises concentrated in one area is causing a cumulative impact on one or more of the licensing objectives.
- 11.3 Following concerns as to the perceived saturation of licensed premises in the area known as Op Can Do attached as Appendix 1 with a list of streets attached as Appendix 2, the licensing committee approved the consultation of a review of the Statement of Licensing Policy to include a special policy in that area.
- 11.4 The following steps were undertaken by the licensing authority in considering whether to adopt a special policy on cumulative impact for the Op Can Do area:
- Identified concern about the negative impact on the licensing objectives
 - Considered whether there is evidence to support the concerns identified that crime and disorder and nuisance is occurring and is associated with licensed premises
 - Consulted with those specified in section 5(3) of the Licensing Act 2003, on the proposal for a special policy in relation to new applications and variations to existing premises licences and club premises certificates and considered the outcome of the consultation
 - Having considered the available evidence and undertaken consultation, the licensing authority determined that it is appropriate to control cumulative impact.

Special Policy on Cumulative Effect

- 11.5 The Licensing Authority has adopted (following a meeting of the full council on 17 April 2013) a special policy relating to cumulative impact in respect to the following types of licences [this section will be completed once a decision has been made by the licensing committee as to the premises affected by the policy] for the Op Can Do area
- 11.6 This special policy creates a rebuttable presumption that applications within the Op Can Do area for new premises or club premises certificates or variations that are likely to add to the existing cumulative impact will normally be refused, if relevant representations are received about the cumulative impact on the licensing objectives, unless the applicant can demonstrate why the operation of the premises involved will not add to the cumulative impact already being experienced.

Comment [a1]: This paragraph will be finalised following the relevant committees

- 11.7 Applicants will need to address the special policy issues in their operating schedules in order to rebut such a presumption.
- 11.8 Despite the presumption against grant, responsible authorities and/or other persons will still need to make a relevant representation before the licensing authority may lawfully consider giving effect to its special policy i.e. if no representation is received, the application must be granted (subject to such conditions as are consistent with the Licensing Act 2003). Responsible authorities and other persons can make a written representation referring to information, which had been before the licensing authority when it developed its statement of licensing policy.
- 11.9 This licensing authority recognises that a special policy should never be absolute. The circumstances of each application will be considered properly and applications for licences and certificates that are unlikely to add to the cumulative impact on the licensing objectives may be granted. After receiving representations in relation to a new application or for a variation of a licence or certificate, the licensing authority will consider whether it would be justified in departing from its special policy in the light of the individual circumstances of the case. The impact can be expected to be different for premises with different styles and characteristics. If the licensing authority decides that an application should be refused, it will still need to show that the grant of the application would undermine the promotion of the licensing objectives and that necessary conditions would be ineffective in preventing the problems involved.
- 11.10 A special policy will not be used as a ground for revoking an existing licence or certificate when representations are received about problems with those premises.
- 11.11 The “cumulative impact” on the promotion of the licensing objectives of a concentration of multiple licensed premises should only give rise to a relevant representation when an application for the grant or variation of a licence or certificate is being considered.
- 11.12 A review must relate specifically to individual premises, and by its nature, “cumulative impact” relates to the effect of a concentration of many premises. Identifying individual premises in the context of a review would inevitably be arbitrary.
- 11.13 A special policy relating to cumulative impact cannot justify, and will not include provisions for a terminal hour in a particular area or impose quotas - based on either the number of premises or the capacity of those premises.
- 11.14 This special policy will be reviewed regularly in line with the statutory requirements to review the Statement of Licensing Policy unless the licensing authority deems it appropriate to review in the interim period.
- 11.15 The absence of a special policy however, does not prevent any responsible authority or other persons making representations on a new application for the grant of a licence on the grounds that the premises will give rise to a negative cumulative impact on one or more of the licensing objectives.
