Key:

↔	- remaining static	<span style="background-color: #FF0000; width: 15px; height: 10px; display: inline-block;"></span>	- behind target and plans are not likely to bring back on target
↑	- improving	<span style="background-color: #FFD700; width: 15px; height: 10px; display: inline-block;"></span>	- behind target but plans in place and likely to resolve issues or behind target but good comparative performance/progress
↓	- deteriorating	<span style="background-color: #90EE90; width: 15px; height: 10px; display: inline-block;"></span>	- on target

Programme Overview:

- Focused on actions to help people make healthy choices and lead healthy lifestyles. Improvements will, in the main, be led locally through health improvement programmes commissioned and delivered by the local authority.

Programme Objective:

- People are helped to live healthy lifestyles, make healthy choices and reduce health inequalities

Programme Outcomes:

- Improved performance across the 24 Health Improvement indicators identified within the national Public Health Outcomes Framework

[https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/216160/Improving\\_outcomes-and-supporting-transparency-part-1A.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/216160/Improving_outcomes-and-supporting-transparency-part-1A.pdf)

Key Milestones:

Develop and implement a Smokefree Plan to provide comprehensive tobacco control action to reduce:

- Smoking status at time of delivery
- Smoking prevalence – 15 year olds
- Smoking prevalence – adult (over 18s)

Develop and implement a Change 4 Life Plan targeted physical activity and weight management interventions for children and adults

- Excess weight in 4-5 and 10-11 year olds
- Excess weight in adults
- Proportion of physically active and inactive adults

Reduce level of non-communicable disease through NHS Health Check programme

- Take up of the NHS Health Checks Programme – by those eligible

Key Milestone Progress:

Smokefree	Smokefree Plan prepared for consultation and Alliance established
	Smoking cessation remains on target
	Overall smoking prevalence remains significantly higher than national prevalence
Change4Life	Change4Life Plan prepared for consultation
	Change4Life Alliance to be established
	Number of intervention programmes is above original trajectory
NHS Health Checks	Programme established in local GP Practices
	Programme aligned with Clinical Commissioning Group priority of reducing the burden of coronary heart disease and stroke.
	Take up is currently below national average for Q2 but additional data is required

Programme Key Metrics:

Smokefree		
↓	England prevalence among adults 20%	Peterborough prevalence among adults 23.7%
Rates are reducing but remain higher than England average		

Change4Life		
↔	England obesity rates among year 6 children 19.2%	Peterborough obesity rates among year 6 children 19.2%
Excess weight in children and adults is not significantly different to national levels		

Health Checks Programme		
↓	England % that received a health check 1.9%	Peterborough % that received a health check 2.9%
Take up of NHS health check programme by those eligible was higher than England average in Q1		

Programme Headlines:

Information provided in the report is intended to give a snapshot of activity undertaken that relates to 24 separate indicators. Peterborough ranking across these 24 indicators against the England average is shown below.

Better	Similar	Worse	No Data
1	6	9	8

Key:  
 ↔ - remaining static  
 ↑ - improving  
 ↓ - deteriorating  
 - behind target and plans are not likely to bring back on target  
 - behind target but plans in place and likely to resolve issues or behind target but good comparative performance/progress  
 - on target

### Programme Overview:

- Focused on actions to protect the population's health from major incidents, communicable diseases, environmental and other threats, whilst reducing health inequalities

### Programme Objective:

- The population's health is protected from major incidents and other threats

### Programme Outcomes:

- Improved performance across the 7 Health Protection indicators identified within the national Public Health Outcomes Framework

[https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/216160/Improving-outcomes-and-supporting-transparency-part-1A.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/216160/Improving-outcomes-and-supporting-transparency-part-1A.pdf)

### Key Milestones:

- Establish a multiagency Peterborough Health Protection Committee with agreed terms of reference which meets bi-monthly and reports to the Health & Wellbeing Board
- Commissioning of integrated sexual health services for Peterborough's population
- Working with PHE Centre and NHS England Public Health Team to improve population vaccination coverage

### Key Milestone Progress:

Health Protection Committee	Committee established
	Membership and terms of reference agreed
	Priorities for in-depth review identified
Sexual Health Services	Consultation process on integration of services completed
	Tender documents developed
	Invitation to tender to be issued in November 2013
Vaccination coverage	On-going MMR-catch up campaign among 10-16 year old
	Introducing new immunisations/changes to imms schedule: rotavirus, shingles, meningitis C, childhood influenza
	Seasonal flu immunisation

### Programme Key Metrics:

Chlamydia diagnoses (15-24 year olds)		
↔	England 2125 diagnoses per 100,000 young people	Peterborough 2159 diagnoses per 100,000 young people
The DH recommends local areas achieve an annual chlamydia diagnosis rate of <b>at least</b> 2,300 per 100,000 15-24 year old resident population. Peterborough is on track to achieve this level through good screening coverage.		

Population vaccination coverage		
↔	England MMR (dose 1) 91.2%	Peterborough MMR (dose 1) 91.1%
Ongoing national and local campaign for MMR catch-up immunisation		

Treatment completion for tuberculosis (TB)		
↔	England treatment completion rate 84.3%	Peterborough treatment completion 84.0%
Peterborough has higher incidence rate of TB (25.9/100,000) than England (15.4/100,000) and the challenge is to maintain performance on case detection and treatment completion		

### Programme Headlines:

Information provided in the report is intended to give a snapshot of activity undertaken that relates to 7 separate indicators. Peterborough ranking across these 7 indicators against the England average is shown below.

Better	Similar	Worse	No Data
	6		1

**Programme Overview:**

- Focused on actions to prevent ill health and premature mortality, whilst reducing health inequalities

**Programme Objective:**

- To reduce the number of people living with preventable ill health and people dying prematurely, whilst reducing the gap between communities

**Programme Outcomes:**

- Improved performance across the 16 Healthcare indicators identified within the national Public Health Outcomes Framework

[https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/216160/Improving-outcomes-and-supporting-transparency-part-1A.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/216160/Improving-outcomes-and-supporting-transparency-part-1A.pdf)

**Key Milestones:**

- Peterborough City Council Public Health team is working with the Cambridgeshire and Peterborough Clinical Commissioning Group (CCG) towards CCG priority “Reducing Inequalities in Coronary Heart Disease (CHD)” through the following four work streams:
  - NHS Health Checks Programme
  - Prevention in primary care
  - Smoking cessation and tobacco control
  - Cardiac rehabilitation
- Working with NHS England to monitor cancer screening rates for Peterborough; and raise awareness of symptoms and risk factors among the population
- Reducing infant mortality rate through addressing risk factors in pregnancy and first year of life

**Key Milestone Progress:**

Reducing inequalities in CHD	NHS Health Checks programme established
	Smoking cessation on target
	Working with GP practices to strengthen management of CHD risk factors
Cancer mortality	Smoking cessation on target
	“Be Clear on Cancer” campaign for raising awareness
	Cancer screening rates on target
Infant mortality	Reduce smoking in pregnancy
	Reduce teenage pregnancy
	Ensuring high immunisation coverage

**Programme Key Metrics:**

Under 75 mortality rate from all cardiovascular diseases		
↓	England 60.9/100,000	Peterborough 77.7/100,000
Rates are reducing but still worse than England average		
Under 75 mortality rate from cancer		
↓	England 108.1/100,000	Peterborough 106.1/100,000
Rates are reducing and similar to England average		
Infant mortality		
↓	England 4.29/1000	Peterborough 4.32/1000
Rates are reducing and similar to England average		

**Programme Headlines:**

Information provided in the report is intended to give a snapshot of activity undertaken that relates to 24 separate indicators.

Peterborough ranking across these 16 indicators against the England average is shown below.
