## Peterborough City Council Community Infrastructure Levy Charging Schedule

Peterborough City Council, as the local Planning Authority, is the Charging Authority and will also be the Collecting Authority. This Charging Schedule comes into force on 24/04/2015.

### Liability to Pay CIL

A chargeable development is one for which planning permission is granted and which is liable to pay CIL in accordance with the Regulations.

### Schedule of Rates

Peterborough City Council is proposing to charge CIL in respect of development at the following rates:

Development Type	Charging Zone		
	High	Medium	Low
Market Housing on sites of less than 15 units	£140	£120	£100
Market Housing on sites of 15 or more units	£70	£45	£15
Apartments on sites of less than 15 units	£70	£45	£15
Residential development comprising 500 or more dwellings	£0	£0	£0
Supermarkets*	£150		
Retail Warehouses**	£70		
Neighbourhood Convenience Stores***	£15		
All other development	£0		
All charges are £ per sq m			

\* Supermarkets are large convenience-led stores where the majority of custom is from people doing their main weekly food shop. As such, they provide a very wide range of convenience goods, often with some element of comparison goods. In addition to this, the key characteristics of the way a supermarket is used include the area used for sales of goods generally being above 500 sq m; the majority of customers using a trolley to gather a large number of products; the majority of customers accessing the store by car using the large adjacent car park provided; and servicing being undertaken via a dedicated service area rather than from the street.

\*\* Retail warehouses are usually large stores specialising in the sale of household goods (such as carpets, furniture and electrical goods), DIY items and other ranges of goods. They can be stand-alone units, but are also often developed as part of retail parks. In either case, they are usually located outside of existing town centres and cater for mainly car-borne customers. As such, they usually have large adjacent dedicated surface parking.

\*\*\*Neighbourhood convenience stores are used primarily by customers undertaking “top-up” shopping. They sell a limited range of convenience goods and usually do not sell comparison goods. The key characteristics of their use include trading areas of less than 500 sq m; the majority of customers buying only a small number of items that can be carried around the store by hand or in a small basket; the majority of customers accessing

the store on foot and as such there is usually little or no dedicated parking; and servicing being undertaken from the street rather than from dedicated service areas.

### **How will the Chargeable Amount be Calculated?**

CIL charges will be calculated in accordance with CIL Regulation 40 (as amended). The chargeable amount will be equal to the aggregate of the amounts of CIL chargeable at each of the relevant rates as set out in this charging schedule.

The chargeable amount will be index linked using the Royal Institution of Chartered Surveyors' All-in Tender Price Index figures for the year in which the planning permission is granted and the year in which this charging schedule took effect.

### **Date of Approval**

This charging schedule was approved on 15/04/2015 (tbc)

### **Date of Effect**

This charging schedule will take effect on 24/04/2015 (tbc)
