KEEP BRITAIN TIDY.
Using behavioural insights to address fly-tipping

Tuesday 23 October 2018
KEEP BRITAIN TIDY’S FLY-TIPPING ACTION PLAN

- Better research and greater innovation
- Give householders the information they need
- Make it easy for householders to do the right thing
- Encourage the development of a more circular economy
- Develop effective and consistent enforcement strategies
- Encourage stiffer sentencing in magistrates’ courts

Keep Britain Tidy’s action plan for tackling fly-tipping over the next five years.
RESEARCH CONDUCTED TO DATE

• National survey with 1,000 adults across England (2016)

• Inside the head of fly-tippers (2017)

• Understanding fly-tipping in Harrow (2018)

• Understanding fly-tipping in Southall, Ealing (2018)

• Understanding and tackling fly-tipping in London (2018)
RESEARCH CONDUCTED TO DATE

Inside the head of fly-tippers (2017)

- Desk review of council fly-tipping data, including current approaches
- Two focus groups with general public recruited
- One focus group with people who had fly-tipped in the last two years
- Online survey with 1,017 residents of Stevenage and Welwyn Hatfield
RESEARCH CONDUCTED TO DATE

Understanding fly-tipping in Harrow (2018)

- Desk review of council fly-tipping data
- Interviews with eight council operative staff
- Crew ride-along and visual analysis
- Focus groups with residents of hotspot locations who had fly-tipped within the past year:
  - One with general residents
  - One with Romanian residents
- On-street survey with 150 residents at fly-tipping hotspot locations
Burn Oak area – Parkway, Mollissons Way and The Highlands and adjoining streets
South Harrow area – Northolt Road, Kingsley Road and adjoining streets
RESEARCH CONDUCTED TO DATE

Understanding fly-tipping in Southall, Ealing (2018)

- Desk review of council fly-tipping data
- Two focus groups with residents who had fly-tipped within the past year.
RESEARCH CONDUCTED TO DATE

Understanding and tackling fly-tipping in London (2018)

- Desk research: WasteDataFlow and data from 16 councils
- Four in-depth focus groups with residents who had fly-tipped over the past year:
  - 1 x ‘Black bags’ focused (Haringey and Redbridge)
  - 1x transient populations focused (Newham)
  - 2 x general residents (Hounslow and Westminster)
- Eight in-depth interviews with local business reps
- Online survey with 1,000 adults across London
- Co-design workshop with 20 LEDNet members
RESEARCH CONDUCTED TO DATE

• Understanding and tackling fly-tipping in London (2018)

• Inside the head of fly-tippers (2017)

• Understanding fly-tipping in Harrow (2018)

• Understanding fly-tipping in Southall, Ealing (2018)
OUR APPROACH

Define

Understand

Design

Scale

Influence

‘The design and development of new approaches towards change that benefit society’

Keep Britain Tidy
BEHAVIOURAL CONTEXT

- Environmental context
- Social context
- Personal context
WHAT DO WE MEAN BY ‘INTERVENTION’

Activity designed to change specified behaviour patterns, promoting uptake of the desired behaviour and decreasing uptake of the undesired behaviour.

Behaviour change interventions could include:

• A product
• A campaign
• A specific messaging or communications approach
• An engagement approach
• A ‘nudge’ / choice architecture
• Training or education
• A service
• Incentives (rewards or penalties)
• A tax, fine or other financial sanction
• Changes the environment
• Changes to infrastructure
• A policy change
CRITERIA

What is the scope of interventions that will be accepted for piloting?

- Scalable
- Cost effective
- Measurable
- Practical to deliver
- Address behavioural insights

KEY INSIGHTS
HOW FLY-TIPPING AWARENESS WAS CAPTURED

- Grass/hedge cuttings on the street
- Food packaging on the street
- Charity donations outside a charity shop
- Mattress on a street or next to a wall
- DV/ building rubbish on the street
- Cardboard boxes on and next to public recycling bins
- Box of food packaging on a public window sill or wall
- Bags of rubbish next to household bins on the street
- Smaller electrical item (e.g., television) on the street, etc.
- Bags of rubbish next to a public litter bin

*Understanding and tackling fly-tipping in London, base = 996.*
There is a lack of awareness of what constitutes ‘fly-tipping’. This means that communications aimed at addressing fly-tipping may not be reaching audiences who do not recognise the behaviour as something that they, or someone else they know, might do.

KEEP BRITAIN TIDY.
AWARENESS OF ‘FLY-TIPPING’
HANDS UP

Who had heard of the term ‘side waste’ before they joined the sector?

Who here knows what ‘side waste’ means today?
# MAKE IT EASY: CUT THE JARGON!

<table>
<thead>
<tr>
<th>Current communication</th>
<th>Suggestions for improving the communication</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Fly-tipping is the illegal dumping of waste on land.</strong></td>
<td>People may not associate the term ‘land’ with many locations where fly-tipping occurs, such as on streets/kerbs and in car parks. Consider providing specific examples here that are relevant to the target audience. Avoid using the term ‘waste’ in isolation.</td>
</tr>
<tr>
<td><strong>Residents who place side waste (excess waste that cannot fit in the bin being collected) may face enforcement action under sections 33, 46 and 87 of the 1990 Environmental Protection Act.</strong></td>
<td>Avoid terms such as ‘side waste’ and simplify the message, e.g.: Putting bags of rubbish next to household bins and public bins is illegal because...</td>
</tr>
</tbody>
</table>
MAKE IT EASY: IMPROVE THE WAY INFORMATION IS PRESENTED

Useful waste and recycling links

- What goes in which bin?
- Food waste bio bags
- Recycling centre (the tip)
- New to Harrow?
- Requesting a repair or ordering a new bin
- Assisted waste collections
- Ways to recycle
- Household clinical/hazardous waste
- Flats
- Garden waste
- Waste strategy and performance
- Bulky waste collections
MAKE IT EASY: IMPROVE THE WAY INFORMATION IS PRESENTED

• Present by issue type (instead of service type) or use questions:
  What do I do with rubbish I cannot put in my bin? How do I dispose of large unwanted items?

• Use ‘frequently asked questions’ or ‘asked by other residents’

• Use images/photographs to help users understand the key messages quickly

• Improve the information provided about the alternative waste disposal options available (particularly free services)

• Use ‘illegal dumping’ instead of or alongside ‘fly-tipping’?
USE ATTRACTIVE COMMUNICATIONS
BE SOCIAL

• Tell people what they can do (not what they can’t)
• Use positive reinforcement and social norming:
  • Provide positive feedback on what is done well
  • Celebrate success
  • Highlight the positive behaviours that most people do and expect
  • Use people in images
  • Use stories and quotes from real people (people are interested in other people’s personal stories)
• Be more human
USE TIMELY COMMUNICATIONS

• Moving house
• Clearing out (the house, the garage, a specific room)
• Replacing white goods, mattresses and other items
• Decorating
• Gardening
• When having people to stay and needing to clear up
• After a party (generally large volumes of glass bottles and cans)

“Every Asian people, mostly Indian, in Diwali they clean place and they put their old stuff outside, which they don’t want. So, collection service at that time will be a good idea.”

(Focus group participant)
PERCEPTIONS OF ACCEPTABILITY

Certain types of fly-tipping are seen as socially acceptable:

• Small-scale
• Contained
• Safe and easy to handle
• Likely to be collected quickly
• In a location that is frequently visited (street corner, flat bin stores, next to litter bins, etc.)

“I think because they're cleared away quite quickly [black bags and charity donations], it's not as offensive.”

(Focus group participant)
PERCEPTIONS OF ACCEPTABILITY

Social proof and feedback loops

• 24-hour collection taskforces
• The social norming effect
• Lack of understanding of broader social, environmental and economic impacts.
PERCEPTIONS OF ACCEPTABILITY

Social proof and feedback loops

“I’m not blaming other people but I had seen that other people had done it and I thought that it must be alright.”

[“How long would you leave it in place before you take it back?”]  “Like a week. But it’s already gone by the next day anyway, so yeah.”

[“What were you thinking when you put it there?”]  “That when they come tomorrow morning it will all be gone. They'll take it. And they did, every time.”

(Focus group participants)
UNDERSTANDING OF IMPACTS

• There is a lack of understanding about the impacts of fly-tipping (and waste service systems). Household fly-tipping was seen as low-impact and participants struggled to understand the cost impacts and implications for the broader community. A common perception is that 'council is already out there collecting rubbish, so they may as well collect mine while they're at it'.
• Fly-tipping is often motivated (or excused) by a perception of 'helping someone out'. Respondents who had fly-tipped were more likely to agree with the statement ‘If someone can find a use for the items, then it’s fine to leave them’.
PERCEPTIONS OF HELPING SOMEONE OUT
PERCEPTIONS OF HELPING SOMEONE OUT

“Furniture is alright as long as it’s not there for long – you can’t leave things out indefinitely. It’s ok if it’s there and you keep an eye on it.”

“It’s a good idea, isn’t it – it’s recycling in itself.”

“But with that [leaving something out for others to take] you’re talking about responsible people – not fly-tippers. A car seat can help somebody out. But you wouldn’t put out a fridge that a kid could go in.”

“I didn’t do anything wrong, I just helped someone to get something, maybe he’s going to sell it for, I don’t know, £2 or something, whatever, yeah, but I just put it there to help someone.”

(Focus group participants)
EXPECTATIONS

There is an expectation that fly-tips will be collected quickly and without repercussions. Fly-tipped items are often collected within a matter of hours and generally without consequences, such as a warning letter or fine. This appears to reinforce perceptions that fly-tipping is low impact.
COUNCIL RULES, PRACTICES AND LEARNED BEHAVIOURS

Some of the methods used by councils to clean streets and collect waste unintentionally drive fly-tipping.

• ‘Side waste’ rules
• Rules and practices that increase the ‘hassle’ factor (being fuss about what will be collected/accepted; requiring measurements; onerous booking systems, etc.)
• ‘Time banding’ and leaving bags of litter from street sweeps on street
STREET CLEANSING
STREET CLEANSING
EXCESS WASTE

Households are not managing their waste effectively and frequently run out of room in their bins before collection day. Many participants felt overwhelmed with the amount of waste they were bringing into their households, particularly cardboard and plastic packaging.
LOW THREAT OF ENFORCEMENT

There is a very low perceived threat of enforcement. While participants were generally supportive of enforcement of fly-tipping (even if they had been caught themselves), they felt that fly-tipping was not generally being enforced and the perceived likelihood of getting caught fly-tipping was low.
THE HASSLE FACTOR

Disposing of waste responsibly is seen as a 'hassle' (and there is much scope for improving this). Fly-tipping is often perceived as the cheapest and most convenient option. By comparison, bulky waste services are perceived as costly and inconvenient.
THE HASSLE FACTOR

THE HASSLE FACTOR

https://my.newham.gov.uk/Cases/NewCase.aspx?service=ee29ad77-ac65-e011-a7f2-00155d361800&token=NGFhZmQ5OGMtMTM2NS1lNTExLTEtMDEtMDAxNQ
DECREASING THE HASSLE FACTOR

User journey mapping

- A resident wishing to dispose of a bulky item without a car
- A resident wishing to dispose of an item which they deem reusable
- A resident using the council website to find out about waste and recycling
DECREASING THE HASSLE FACTOR

Identify and tackle bottlenecks

Not how busy or how productive, but the maximum potential output, e.g.:

Maximum capacity to process invoices:
• Step 1 – 200
• Step 2 – 80
• Step 3 – 50
• Step 4 – 20
• Step 5 – 10,000
WE NEED TO MARKET OUR SERVICES BETTER

Some current Bulky Waste Collection deals out there:

• £66.00 (or £50.00 concessions) for up to 6 items (3 refuse sacks = 1 item).

• £30 for up to three items. Sofas are charged per number of seats – a three-seater sofa counts as three items.

• 1-5 items (or up to 20 black bags): £25.00, 6-10 items (or up to 40 black bags): £50.00, 11-15 items (or up to 60 black bags): £75.00
WE NEED TO MARKET OUR SERVICES BETTER

The Framing Effect

- 99% fat free versus 1% fat
- Book one item for collection for £30 and get two free
COULD WE PROVIDE A BETTER SERVICE?

For example:
- Removing heavy items from inside the home
- Faster and more predictable services
- Providing platforms to help people bundle with neighbours

Or should we focus on proactively promoting alternatives?
A LACK OF PERSONAL RESPONSIBILITY

People feel a lack of personal responsibility for their own waste. The research suggests that many residents do not feel personally responsible for their unwanted items and waste once it is 'off their hands'. This is largely seen as the council's responsibility and often linked with paying council tax.
OVERALL

Fly-tipping is seen as free and convenient – it’s hard to beat when comparing to other disposal options.

Therefore, we need to consider:

- How do we make the right thing to do easier (and the wrong thing more difficult) compared to other options?

- How do we make the right thing to do more attractive (and the wrong thing less attractive) than other options?
## EXAMPLES

| Making the right thing EASIER (and the wrong thing more difficult) | • Use landscaping to block access to fly-tipping hotspots  
|                                                                | • Make information easy to find and understand; use images  
|                                                                | • Simplify processes  
| Making the right thing more ATTRACTIVE (and the wrong thing less attractive) | • Increase the threat of enforcement  
|                                                                  | • Use beautification; use social norming techniques  
|                                                                  | • Appeal to values  

[Image: KEEP BRITAIN TIDY]
Questions?
INTERVENTIONS TO TACKLE FLY-TIPPING
CRIME SCENE INVESTIGATION TAPE

To address: expectations, low threat of enforcement
NO BAGS ON STREET POLICY

Time banding experiments and bin host scheme
GIANT PRICE TAGS ON FLY-TIPS

To address: lack of understanding about impacts
VALUES-BASED COMMUNICATIONS AND THE MESSENGER EFFECT

To address: social acceptability, lack of awareness of impacts, perceptions of ‘helping someone out’

If we reduced fly-tipping by 10%, there we could save enough money to provide an additional 5,470 hours of in-home nursing and healthcare services for the community per year.
BEAUTIFICATION

Activities to increase the quality, attractiveness and visibility of hotspots (e.g. painting, artwork, cutting back overgrowth)
BEAUTIFICATION

Using ‘beautiful obstructions’ to design-out fly-tipping
BEAUTIFICATION

Repurposing hotspots
HUMANISING THE COUNCIL VIA PERSONALISED COMMUNICATIONS

To address: social acceptability, lack of understanding about waste services, expectations to fly-tips will be collected without repercussions
LOST AND FOUND CAMPAIGN

To address: lack of personal responsibility for waste

FOUND CAT
ARE YOU ITS OWNER?

This cat is a grey/white neutered male Domestic short-haired cat who was found on 25 May 2017 at around 00:00hrs. This cat may be microchipped.

FOUND:
DIDCOT OX11.

If you recognise this cat
