A further comment from one of the neighbours has been received they comment:-

I will not be able to attend the meeting on Dec 15th due to work commitments in London on that day.

I would like to just put a few points forward; one being that the footings for the proposed extension have been dug on the boundary of my property, so close that my patio bricks are now loose, meaning that any wall of the extension would be merely centre meters away from my boundary. This would impede on daylight getting in to my living quarters and also falls below the 1.5mtr distance that I believe should be adhered to.

My second point is that the tenants who occupy the property buy and sell cars from there. The running of any business is not my concern, however the amount of vehicles is too many for the property. There is currently 1 vehicle on the drive, 2 vehicles on the front garden and numerous more parked on the road. There are double yellow lines at the front of the property and should permission be given to extend then I highly suspect that more people would live there and more vehicles would turn up for the occupiers. On a daily basis the vehicles from this address, albeit they are undoubtedly not registered to this address as are 'in trade', park on the double yellow lines and not only cause an obstruction to road users, this also poses a risk to pedestrians, many of whom are school children walking to the local school. I trust that consideration would be given regarding parking and the fact the tenant buys and sells vehicles from that address. Should permission be granted and when undoubtedly more vehicles arrive due to more occupants, then I trust a full risk assessment would have been carried out as the duty of care and the risk to the local road users, pedestrians and school children would be with the council. Mayors Walk is and always has had an issue with vehicle speeding along it, therefore the parking on double yellow lines poses a real risk.

As stated in my original objection letter; an extension of this size would not only be overbearing, impact on the wildlife in the local gardens and allotments, breach article 8 of the human rights act by the council taking away my right to privacy as I suspect the extension is planned to have windows looking directly at my property but I also find it hard to understand that the owner of the property, who is a local councillor, thought it ok to start building works on the hope of getting retrospective permission rather than getting permission granted in the first place, proven by the fact building work was stopped by your building control. Thus showing no regard for the standard process which both 186 Mayors Walk and myself adhered to before completing any building work on our address.

Many thanks for your time.

A new representation has also been received from the occupants/owners of No.186 Mayors Walk as follows:

So the owner of the house is building very near to the boundary which will block out any sun light to my property and is not leaving any space . Secondly the owner of 184 is a local Councillor which should have known better and started work without obtaining the permission and has also damaged my property e.g. fence.

After having a conversation with the owner of 184 Mayors Walk he advised he works for the planning committee and will be able to push his application through which is not fair as I believe everyone

should be treated equally.

I have had done work to my house and I was told to leave a metre and half space due to sun light even though I didn't block any light to 188 Mayors Walk.
