

Overview

The revised Capital Programme budget as at July 2020 is £130.5m, which includes £45.6m for Invest to Save (I2S) Schemes.

The agreed investment as per the Medium Term Financial Plan (MTFS) was £146.4m The movement between the MTFS position and the £158.6m as at April 2020 was a result of slippages mainly due to delays completing projects from 2019/20.

The actual investment expenditure as at July 2020 is £7.1m. The latest forecast provided by project managers predicts an overall spend of £130.5m, therefore the Council is expecting to spend a further £123.5m before Mar-21.

The I2S budget is for schemes that must cover the cost of borrowing and minimum revenue provision (MRP) from either income generation or from generated savings.

The Asset Investment Plan can be funded via three core elements, external third party income (including grants), capital receipts generated from the sale of Council assets, and borrowing from the external market. For the 2016/17 MTFS onwards the approved strategy is to use Capital Receipts as part of a contribution to the Minimum Revenue Provision (MRP) therefore they are no longer used primarily for the funding of the Asset Investment.

The following table shows the breakdown of the Council's Asset Investment over the directorates and how this investment is to be financed.
