

Heltwate Consultation - Summary of Responses		
Date received	From	Summary of response
21.05.21	Resident	Concerned that a number of “elderly” and “non-UK nationals” would have liked to have been part of the consulting group. Additionally, would have liked more options available for those who have difficulty accessing the internet. Further concern expressed that consulting period of 4 weeks is too short. Required details of the planning application that was granted for the building works.
25.05.21	DEMAT	Supportive of increase in places. Considers this a positive step.
26.05.21	Parent governor	Pleased that new building will suit students ever changing needs and happy with the investment. Concerned that the student role is increasing and new building is only replacing existing thus does not consider future increase in numbers. Suggested that many prospective parents are considering naming Heltwate in upcoming EHCPs. Hope the LA has a more long-term plan for future needs.
