Report of:	John Gregg, Director of Children and Young People Services		
Cabinet Member(s) responsible:	Katy Cole, Cabinet Member for Children's Services		
Contact Officer(s):	Katie Liddle, Designated Nurse Children in Care	Email:	katie.liddle@nhs.net

HEALTH REPORT – DENTAL UPDATE

RECOMMENDATIONS	
FROM: Katie Liddle, Designated Nurse Children in Care	Deadline date: N/A
<p>It is recommended that the Corporate Parenting Committee:</p> <ol style="list-style-type: none"> 1. Notes the content of the report 2. Raise any queries with the lead officers 	

1. ORIGIN OF REPORT

- 1.1 This report is submitted to a formal Corporate Parenting Committee as part of a scheduled work programme item.

2. PURPOSE AND REASON FOR REPORT

- 2.1 This report provides an update on health and dental services for children in care. The report provides an overview of the Integrated Care Board's (ICB) activities to ensure robust monitoring and quality assurance systems are in place to meet the health needs of Peterborough's Children in Care including those with a disability.
- 2.2 This report is for the Corporate Parenting panel to consider under its Terms of Reference No. 2.4.4.6 To monitor the quality of care delivered by the City Council and review the performance of outcomes for children and young people in care. Promote the development of participation and ensure that the view of children and young people are regularly heard through the Corporate Parenting Committee to improve educational, health and social outcomes to raise aspiration and attainments.
- 2.3 *How does this report link to the Children in care Promise?*

We will support you maintain a healthy lifestyle and help look after your physical and mental health.

3. TIMESCALES

Is this a Major Policy Item/Statutory Plan?	NO	If yes, date for Cabinet meeting	N/A
---	-----------	----------------------------------	-----

4. BACKGROUND AND KEY ISSUES

- 4.1 All children in care placed in Peterborough have their dental health reviewed during health assessments. Children seen for Initial Health Assessments (IHAs) have a mouth check completed by a paediatrician and every child that is seen for a Review Health Assessment

(RHA) has their dental health and access to dental care discussed as part of their review with a specialist nurse.

4.2

Children in care are advised of their local dental access centre if they require urgent dental care. All children in care are advised of the CHiC (children in care) dental practices identified on the volunteer dentist map for routine dental check-ups and preventative dental care if they are not currently registered with a dentist. CHiC is a group of dental practices who have signed up to the volunteer map who are committed to seeing children in care. Other dentists across the county will also add children in care to their register when waiting lists allow.

4.3

Bushfield dental practice have continued the commitment made in Jan 2023 to see children in Care living in Peterborough for routine dental assessments and completion of treatment required. There is a code to be used when the carer/young person makes an appointment which has been circulated widely across health and Social Care teams. This is so the reception team know to book them an appointment without question when the code is used. The practice manager confirmed recently that the practice is happy to continue to support children in care under the age of 18 who are placed in Peterborough without question and has extended this offer to care leavers up to the age of 25 years.

In addition, Bretton Dental Practice have continued to see unaccompanied asylum seeking children and young people living in Peterborough without issue, but as yet have not committed to adding their details to the volunteer dental map.

4.4

The table below shows data collected at the end of May 2024, 85% of children looked after by Peterborough Local Authority had seen a dentist within the last 12 months. Specifically looking at those children placed in Peterborough it rises to 94% who have seen a dentist within the last 12 months.

Total number of Peterborough children who have been in care for 12 months or more at month end	Number of those children who had seen a dentist within 12 months	Number of those children who had not seen a dentist within 12 months	Number of children not seen by dentist in last 12 months placed outside of Peterborough (out of county children).	Number of children not seen a dentist in last 12 months living within Peterborough (in county children).
293	248	45	28	17
As a percentage	85%	15%	10%	6%

It is of note that 62% of the children who have not seen a dentist within the last 12 months are aged between 16-17 years.

4.5

The Designated Doctor for Children in Care has written to all dental practices across Cambridgeshire and Peterborough to encourage them to add their details to the CHiC volunteer Dental Map and commit to seeing children if they are looked after. This was be circulated by ICB Communications team in February 2024. To date not further dental practices have added their services to the volunteer map.

4.6

In addition to the emergency and routine dental services mentioned above, there is a Special Care Dental Service. They provide a comprehensive range of activities to improve the oral health of children and adults who have a physical, sensory, intellectual mental, medical, emotional or social impairment or disability, which makes routine care in general dental practice unsuitable or impractical for their needs. Children in care automatically meet the referral criteria, however patients are only accepted on referral by General Dental Practitioners. The Special Care Dental Service are able to offer dental treatment under sedation for children/adults experiencing dental phobia but require treatment for oral health.

5. CORPORATE PRIORITIES

5.1 Consider how the recommendation links to the Council's Corporate Priorities:

1. *The Economy & Inclusive Growth*
