

Appendix 1 –  
RECOMMENDATION MONITORING REPORT 2024/25

CLIMATE CHANGE AND ENVIRONMENT SCRUTINY COMMITTEE

Updated: 29/10/2024

Recommendations from 2024/2025 Municipal Year					
Meeting date Recommendations Made	Portfolio Holder / Directorate Responsible	Agenda Item Title	Recommendation Made	Action Taken	Progress Status
18 September 2024	Councillor Ellis, Cabinet Member for Environment and Transport	<b>Household Recycling Centre Operational Updates</b>	The Climate Change and Environment Scrutiny Committee recommended that the new policies be clearly communicated to the media, the public and residents to explain the changes and reasons for the changes prior to their implementation.	A communications plan for the implementation is being drafted. With regards the updates to the DIY policy we are implementing this first, date to be confirmed. We don't have an implementation date for the permit scheme yet as we are waiting for the new tablets to arrive and there are delays with IT.  Officers can provide the full plan once it is all confirmed, and this can be shared with the group.	Awaiting Committee review.
